BUZZI & BUZZI

Buzzi & Buzzi viene fondata nel 1990 da Marialuisa Chiari e Pietro Buzzi, professionisti affermati che decidono di esplicitare e coltivare le intuizioni e le conoscenze maturate in anni di esperienza nel settore illuminotecnico.

Sin dai primi anni l'azienda si avvale della collaborazione di affermati architetti, riconoscendo al design l'importante ruolo di differenziazione.

Tecnica e design si fondono per dare vita a concetti inediti di luce: nascono oggetti in grado di esprimersi in modo realmente diverso, non solo dal punto di vista estetico, ma anche funzionale e tecnico.

Buzzi & Buzzi si è affermata sia in campo nazionale che internazionale; attenta alle richieste e ai linguaggi della contemporaneità, si è specializzata nella proposta di prodotti a scomparsa totale, sfruttando le performance tecniche del Coral®.

Questo excursus fa di Buzzi & Buzzi un'azienda di successo, attenta all'innovazione, allo studio dei materiali e al continuo potenziamento della qualità e del servizio.

L'azienda si è contraddistinta negli anni per un impegno etico fondato sull'attenzione per l'ambiente, espresso innanzitutto per mezzo del Coral® che, andando oltre al concetto di impatto zero, si propone con un ruolo attivo che migliori l'ambiente in cui viene installato; ma anche attraverso la scelta delle sorgenti luminose, costituite principalmente da lampade a risparmio energetico fluorescenti e led, previste per buona parte degli apparecchi prodotti dall'azienda.

Inoltre Buzzi & Buzzi garantisce una costante attenzione al cliente e ai propri dipendenti, tramite la ricerca di un materiale che coniuga le scelte produttive a vantaggio di entrambi.

Buzzi & Buzzi was founded in 1990 by Pietro Buzzi and Marialuisa Chiari, two successful professionals who decided to cultivate and explain the insights and knowledge they had gained from years of experience in the lighting sector.

Since the early years, the company has relied on the contribution of renowned architects, thus recognizing the importance of design differentiation.

Technology and design come together to create new concepts of light: the result is objects which are genuinely different, not only from an aesthetic point of view, but also functional and technical.

Buzzi & Buzzi has established itself both nationally and internationally. Due to its alertness towards requests and modern trends, the company has specialized in proposing total recessed lighting products, while making the most of the Coral®'s technical performance.

The company has distinguished itself over the years through an ethical commitment based on its respect for the environment.

This is reflected not only in the use of Coral®, which goes beyond the concept of zero impact and also plays an active role in improving the environment in the space where it is installed, but also through the choice of light sources which are mainly energy-saving and LED lightbulbs used extensively in Buzzi & Buzzi products.

Moreover, Buzzi & Buzzi guarantees a constant attention to its customers and its employees, through the research of a material that links production with benefits for both of them.

Nuovi prodotti e nuove forme di luce.

Dalla perfetta integrazione tra tecnologia e design, nasce una collezione in grado di esprimersi in modo concretamente diverso, non solo dal punto di vista estetico, ma anche da quello tecnico e funzionale. AirCoral®, DurCoral® e Coral WaterOut®, i materiali esclusivi Buzzi & Buzzi, vivono nei prodotti Recessed, Surface e Outdoor, per una collezione che cambia le regole del semplice illuminare, concretizzando il concetto di “luce architettuale”.

New products and new forms of light.

The perfect integration between technology and design leads to the creation of a line whose ways of expression are concretely different not just in terms of aesthetics, but also for what concerns function and technique. AirCoral®, DurCoral® e Coral WaterOut®, the exclusive Buzzi & Buzzi's materials, live in the Recessed, Surface and Outdoor products for the benefit of a line which revolutionises the rules of traditional illumination, perfectly embodying the concept of “architectural light”.

WHAT ABOUT

È un materiale innovativo formato da minerali naturali e da elementi aggreganti che lo rendono estremamente resistente alle temperature elevate ed agli shocks termici, e consentono di ottenere superfici lisce al tatto, ma allo stesso tempo resistenti agli urti e ai graffi.

Is an innovative material made from natural minerals and aggregates that make it extremely resistant to high temperatures and shocks and result in surfaces that are smooth-to-the-touch but at the same time shock and scratch proof.

LIGHT
THAT PURIFIES
THE
AIR

AIRCORAL® PURIFICA L'ARIA PER VIVERE MEGLIO.

AIRCORAL® PURIFIES THE AIR TO IMPROVE THE QUALITY OF LIFE.

MORE THAN CORAL®

ANTIBATTERICO

capacità di eliminazione totale dei batteri dalle superfici

PER CREARE AMBIENTI SALUBRI

AirCoral® è consigliato in tutti quei luoghi pubblici, come ospedali e strutture sanitarie, dove è preponderante la volontà di creare un ambiente salubre.

ANTIBACTERIAL

ability to complete elimination of bacteria from surface

TO CREATE A HEALTHY ENVIRONMENT

AirCoral® is suggested for all those places, such as hospitals and medical structures, where there is an overriding desire to create a healthy environment.

DEGRADO ELEMENTI INQUINANTI

NEGLI AMBIENTI AFFOLLATI

Non tutti sanno che, negli spazi chiusi e affollati, tipici degli ambienti di lavoro, sono spesso presenti il doppio degli agenti inquinanti rispetto all'esterno. I prodotti in AirCoral®, depurando l'aria, provvedono a garantire un contesto ideale anche in presenza di un numero elevato di persone.

DEGRADATION OF POLLUTANTS

IN CROWDED PLACES

In closed and crowded places, such as working environments, there is often a double quantity of polluting agents than outside. AirCoral® products purify the air and grant a healthy context also in presence of a great number of people.

MATERIALE FOTOCATALITICO PER PURIFICARE L'ARIA

BENESSERE NEGLI SPAZI PRIVATI

Le lampade Buzzi & Buzzi realizzate in AirCoral® illuminano, purificano e arredano gli ambienti delle case, permettendo di ridurre l'inquinamento degli spazi in cui abitiamo, eliminando gli agenti inquinanti dannosi per la salute dell'uomo.

PHOTOCATALYTIC MATERIAL TO PURIFY THE AIR

WELLNESS IN PRIVATE SPACES

Buzzi & Buzzi products in AirCoral® light up, purify and decorate the spaces of houses, and reduce the pollution in the spaces where we live by removing the dangerous agents for the human health.

AirCoral®,
l'antibatterico
che purifica l'aria

*AirCoral®,
the antibacterial product
that purifies the air*

AirCoral®, brevettato e certificato dall'ente americano TCNA, Tile Council of North America è un materiale con un potente effetto antibatterico, che ha la capacità di trasformare le sostanze nocive dell'aria in sostanze innocue, con un processo simile alla fotosintesi clorofilliana (fotocatalisi).

AirCoral®, patented and certified by the American authority TCNA, Tile Council of North America, is a material with a powerful antibacterial effect, which is able to transform harmful substances in the air into harmless substances, with a process similar to chlorophyllous photosynthesis (photo catalysis).

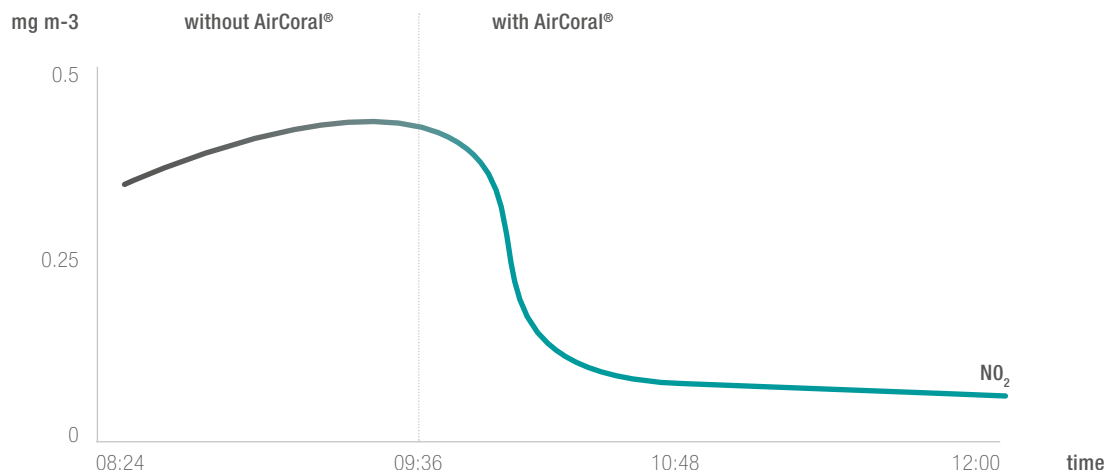

Testato da / Tested by

TCNA: Tile Council of North America

University of Manchester

Gli effetti di AirCoral® sono stati validati e misurati dall'Università di Manchester

(November 2017 - School of chemical engineering and analytic Science) che ha evidenziato:

The effects of AirCoral® have been assessed and measured by Manchester University

(November 2017 - School of chemical engineering and analytic Science) which highlighted:

1.

EFFETTO ANTIBATTERICO

AirCoral® è efficace su tutti i batteri con particolare efficacia verso lo **Stafilococco**, la **Pseudomonas aeruginosa** e **Klebsiella Pneumoniae** responsabili di diversi disturbi che colpiscono polmoni e cuore.

ANTIBACTERIAL EFFECT

AirCoral® is effective on all bacteria with particular efficacy on **Staphylococcus**, **Pseudomonas aeruginosa** and **Klebsiella Pneumoniae** responsible for various illnesses involving the lungs and heart.

2.

EFFETTO ANTI-INQUINAMENTO

Le sostanze inquinanti volatili vengono convertite in prodotti innocui, con particolare efficacia verso **anidride carbonica**, **metano**, **ammoniaca** e **metil solfuro**.

ANTI-POLLUTING EFFECT

Volatile polluting substances are converted into harmless products, with particular efficacy towards **carbon dioxide**, **methane**, **ammonia** and **methyl sulphide**.

3.

EFFETTO PURIFICANTE

La capacità di **ridurre** sensibilmente la presenza di **metalli nell'aria**, con maggiore effetto verso il **cadmio** e il **piombo**, metalli pesanti responsabili di gravi problemi alla salute.

PURIFYING EFFECT

The capacity to considerably **reduce** the presence of **metals in the air**, with greater effect on **cadmium** and **lead**, metals responsible for serious health problems.

Puoi calcolare le capacità di AirCoral® con un apposito calcolatore: seleziona i prodotti, inseriscine la quantità e conoscerai così il totale di aria purificata.

You can calculate AirCoral®'s capacity with a special calculator: select the products, enter their quantity and find out the total amount of purified air.

MATTER SHEDS LIGHT

RECESSED

The technical lighting with the plus of body invisibility

GENIUS

1000 lm IN SOLI 20 mm DI DIAMETRO.
FACILE MANUTENZIONE.

Un prodotto "geniale" a partire dalla forma, discreta ed elegante, in grado di integrarsi perfettamente con le superfici raggiungendo straordinari effetti di scomparsa totale. Genius garantisce una luminosità perfetta in ogni ambiente in cui viene installato: apparecchio da interni a scomparsa totale in AirCoral® per installazione a soffitto di cartongesso o laterizio, è in grado di generare un'intensità luminosa incredibile per un foro di emissione di soli 20 mm, così minimale da scomparire quando il prodotto è spento.

La parte elettrica è estraibile direttamente dal foro luce con un semplice gesto della mano, grazie alla meccanica push-pull, che facilita l'eventuale estrazione e la sostituzione della sorgente LED in caso di manutenzione.

1000 lm IN A DIAMETER OF ONLY 20 mm,
EASY MAINTENANCE.

A bright product starting from its shape, discreet and elegant, able to perfectly integrate itself inside architectures achieving extraordinary complete disappearance effects. Genius guarantees a perfect lighting in every environment it may be installed in: totally disappearing recessed luminaire for indoor spaces, made of AirCoral® and installable on plasterboard or brick ceilings, is able to emit an incredible light intensity for just a 20 mm emission hole, so tiny that it disappears when the product is turned off.

With a simple hand gesture, the electric part can be extracted directly from the hole which allows the light to pour out. This is possible thanks to the push-pull mechanism, which makes the eventual extraction and replacement of the LED source easier in case of maintenance.

Private villa - Arch. E.Corti - Cap Ferrat Côte d'Azur

TWIN GENIUS

DOPPIA EFFICIENZA LUMINOSA E FACILE
MANUTENZIONE. MECCANISMO PUSH-PULL.

Il design di Genius si raddoppia: Twin Genius, apparecchio da interni a scomparsa totale in AirCoral® per installazione a soffitto di cartongesso o laterizio. I due fori di emissione di soli 20 mm scompaiono completamente quando il prodotto è spento; ritagliati all'interno del controsoffitto, in piena continuità con la superficie generano coni luminosi dal volume netto che rompono l'oscurità.

La parte elettrica è estraibile direttamente dal foro luce con un semplice gesto della mano, grazie alla meccanica push-pull, che facilita l'eventuale estrazione e la sostituzione della sorgente LED in caso di manutenzione.

*DOUBLE LIGHT EFFICIENCY AND EASY
MAINTENANCE, PUSH-PULL MECHANISM.*

The design of Genius doubles: Twin Genius, a totally disappearing recessed luminaire in AirCoral®, installable on plasterboard or brick ceilings. The two emission holes of just 20 mm almost disappear when the product is turned off: cut out inside the ceilings, in perfect continuity with the surfaces, these products are able to generate bright cones of light with clean volumes, breaking the darkness.

With a simple hand gesture, the electric part can be extracted directly from the hole which allows the light to pour out. This is possible thanks to the push-pull mechanism, which makes the eventual extraction and replacement of the LED source easier in case of maintenance.

TECHNICAL FEATURES

Private villa - Arch. E.Corti - Cap Ferrat Côte d'Azur

GENIUSQUARE

1000 lm DA UN FORO QUADRATO DI SOLI 20 x 20 mm.

La forma classica del foro di emissione del Genius muta, trasformandosi in quadrata. Sempre discreto ed elegante, si integra perfettamente con le superfici raggiungendo straordinari effetti di scomparsa totale: Geniusquare, apparecchio da interni a scomparsa totale in AirCoral® per installazione a soffitto di cartongesso o laterizio, abbraccia gli oggetti minimizzando il punto luce fino al suo ideale annientamento, in una perfetta sintesi di estetica e tecnologia avanzata.

La parte elettrica è estraibile direttamente dal foro luce con un semplice gesto della mano, grazie alla meccanica push-pull, che facilita l'eventuale estrazione e la sostituzione della sorgente LED in caso di manutenzione.

1000 lm FROM A SQUARE HOLE OF ONLY 20 x 20 mm.

The classic shape of Genius' light emission hole changes, and becomes squared. As always discreet and elegant, it perfectly integrates itself with surfaces achieving extraordinary complete disappearance effects: Geniusquare, a totally disappearing recessed luminaire in AirCoral®, installable on plasterboard or brick ceilings, surrounds objects minimizing the light source up to its ideal disappearance, in a perfect synthesis of aesthetics and advanced technology.

With a simple hand gesture, the electric part can be extracted directly from the hole which allows the light to pour out. This is possible thanks to the push-pull mechanism, which makes the eventual extraction and replacement of the LED source easier in case of maintenance.

HOW JONAH LEFT THE WHALE

TWIN GENIUSQUARE

DOPPIA EFFICIENZA LUMINOSA DA 2 FORI
DI SOLI 20 x 20 mm.

Geniusquare si duplica e diventa Twin Geniusquare, apparecchio da interni a scomparsa totale in AirCoral® per installazione a soffitto di cartongesso o laterizio, garantendo un'intensità luminosa incredibile. Il doppio foro di emissione della luce di soli 20 mm permette al prodotto di integrarsi perfettamente con le superfici, raggiungendo straordinari effetti di scomparsa totale e garantendo una luminosità perfetta in ogni ambiente in cui viene installato.

La parte elettrica è estraibile direttamente dal foro luce con un semplice gesto della mano, grazie alla meccanica push-pull, che facilita l'eventuale estrazione e la sostituzione della sorgente LED in caso di manutenzione.

*DOUBLE LIGHT EFFICIENCY FROM 2 HOLES
OF ONLY 20 x 20 mm.*

Geniusquare duplicates itself becoming Twin Geniusquare, a totally disappearing recessed luminaire in AirCoral® installable on plasterboard or brick ceilings and guaranteeing an incredible light intensity.

The double light-emission hole, which is only 20mm wide, allows the product to perfectly integrate itself with the surfaces it is installed on, adding extraordinary effects of total disappearance and offering a flawless light suitable for any environments.

With a simple hand gesture, the electric part can be extracted directly from the hole which allows the light to pour out. This is possible thanks to the push-pull mechanism, which makes the eventual extraction and replacement of the LED source easier in case of maintenance.

GENIUS DYNAMIC WHITE

DIMMERAZIONE DEL BIANCO IN SOLI 20 mm
DI DIAMETRO.

Genius Dynamic White è un incasso a scomparsa totale da interni in AirCoral® per installazione in soffitto di cartongesso o laterizio con un foro luce di soli 20mm, così minimale da scomparire quando il prodotto è spento, e dotato di un chip su cui sono installati 4 LED che permettono di cambiare la temperatura colore.

In grado di percorrere un range da 2700K a 5000K che valorizza e riproduce il completo ciclo circadiano, orologio biologico del corpo. Questa particolarità incrementa il livello di capacità cognitiva dell'organismo e aumenta il metabolismo del corpo, migliorando in modo tangibile il tempo di reazione agli stimoli visivi.

Il design minimalista del Genius si unisce al potenziale benefico della luce: per questo Genius Dynamic White è particolarmente adatto per essere installato in ambienti di lavoro e di studio, oltre che per tutti gli spazi di vita. La parte elettrica è estraibile direttamente dal foro luce con un semplice gesto della mano, grazie alla meccanica push-pull, che facilita l'eventuale estrazione e la sostituzione della sorgente LED in caso di manutenzione.

*DIMMERING OF WHITE IN A DIAMETER OF
ONLY 20 mm.*

Genius Dynamic White is a total recessed indoor luminaire made of AirCoral® and installable on plasterboard or brick ceilings. The light emission hole of minimal design, only 20mm wide, disappears when the luminaire is off and is provided with a chip with 4 LED lights which allows to regulate colour temperature.

The light emanated by this product can vary from 2700K to 5000K, reproducing and valorizing the entire circadian cycle, the biological clock of our body. This particular characteristic enhances the cognitive level of our organism together with the metabolic activity of our body, concretely improving our capacity to react to visual impulses.

Genius' minimal design mingles with the healthy properties of light: that is why Genius Dynamic White is particularly suitable for study or work environments as well as for any kinds of living spaces.

The electrical part can be extracted directly from the emission hole with a simple hand gesture. This is possible thanks to the push-pull mechanism, which facilitates the eventual extraction and replacing of the LED source in case of maintaining.

Genius Dynamic White

GENIUS DIM TO WARM

DIMMERAZIONE DEL COLORE BIANCO E DELLA POTENZA CON UN SOLO DRIVER.

Genius Dim to Warm è un apparecchio a scomparsa totale, con scocca realizzata in AirCoral®, ideale per installazioni a soffitto in interni, sia su cartongesso che laterizio.

Mantenendo invariate tutte le caratteristiche del Genius originale, la tecnologia LED qui impiegata permette sia il controllo dell'intensità della luce che della temperatura colore, dimmerabile da 1800K a 3000K. Un prodotto con CRI 95, che garantisce tutta l'innovazione tecnologica digitale, ripercorrendo allo stesso tempo le emozioni dell'alogeno.

La parte elettrica è estraibile direttamente dal foro luce, grazie alla meccanica push-pull, che facilita l'estrazione e la sostituzione della sorgente LED. L'unica apertura visibile è il foro da 23 mm, senza la necessità di alcuna botola di ispezione e tantomeno di interventi invasivi in caso di manutenzione.

DIMMERING OF WHITE COLOUR AND POWER WITH ONE SINGLE DRIVER.

Genius Dim to Warm is a totally recessed luminaire, with body made in AirCoral®, ideal for indoor ceiling-mounted installations, both on drywall and bricks.

Without changing any of the features of the original Genius, the LED technology used here allows both light intensity and colour temperature control, dimmable from 1800K to 3000K, to be controlled. A product with CRI 95, which guarantees all digital technology has to offer, while continuing to give the emotions of halogen.

The electrical part can be removed through the light hole, thanks to a push-pull mechanism making it easy to pull the LED light source out and replace it. The only visible aperture is the 23 mm (0.9") outlet, with no need for any inspection hatch, nor for invasive maintenance operations.

GENIUS BRASS

RIFLESSI DORATI SENZA ALTERARE IL COLORE DELLA LUCE.

Genius Brass in AirCoral® è un incasso a scomparsa totale da interni per installazione in soffitto di cartongesso o laterizio. Il foro di emissione luce, di soli 20 mm e dotato di un cilindro in ottone, dona un tocco prezioso ad un prodotto già estremamente raffinato. Genius Brass è un prodotto che con le sue caratteristiche contribuisce ad aumentare il comfort visivo e generare una tonalità di luce più calda, rendendo gli ambienti più accoglienti.

La parte elettrica è estraibile direttamente dal foro luce con un semplice gesto della mano, grazie alla meccanica push-pull, che facilita l'eventuale estrazione e la sostituzione della sorgente LED in caso di manutenzione.

GOLDEN REFLEXES WITHOUT CHANGING THE COLOUR OF THE LIGHT.

Genius Brass is a total recessed indoor luminaire made of AirCoral® and installable on plasterboards or brick ceilings. The light emission hole, only 20 mm wide, is provided with a brass cylinder which gives a precious touch to a product already extremely elegant. Genius Brass' characteristics enhance visual comfort and generates a warm light which makes the environments more welcoming.

The electrical part can be extracted directly from the emission hole with a simple hand gesture. This is possible thanks to the push-pull mechanism, which facilitates the eventual extraction and replacing of the LED source in case of maintaining.

GENIUSQUARE BRASS

RIFLESSI DORATI SENZA ALTERARE IL COLORE DELLA LUCE.

Geniusquare Brass è un apparecchio a scomparsa totale, con scocca realizzata in AirCoral®, ideale per installazioni a soffitto in interni, sia su cartongesso che laterizio. In questa variante, che conserva tutte le caratteristiche della linea Genius, l'arretramento del punto luce è corredato da un inserto in ottone che partecipa alla diffusione luminosa, generando una tonalità di luce più calda e sfumature variegata adatte a situazioni di "relaxed ambience".

La parte elettrica è estraibile direttamente dal foro luce, grazie alla meccanica push-pull, che facilita l'estrazione e la sostituzione della sorgente LED. L'unica apertura visibile è il foro da 20 x 20 mm, senza la necessità di alcuna botola di ispezione e tantomeno di interventi invasivi in caso di manutenzione.

GOLDEN REFLEXES WITHOUT CHANGING THE COLOUR OF THE LIGHT.

Geniusquare Brass is a totally recessed luminaire, with body made in AirCoral®, ideal for indoor ceiling-mounted installations, both on drywall and bricks.

In this version, which retains all the features of the Genius line, the backing on the light emission hole is fitted with a brass insert which helps to spread light, generating a warmer tone and variegated shades suitable for relaxed ambience situations.

The electrical part can be removed through the light hole, thanks to a push-pull mechanism making it easy to pull the LED light source out and replace it.

The only visible aperture is the 20 x 20 mm (0.79" x 0.79") outlet, with no need for any inspection hatch, nor for invasive maintenance operations.

GENIUS BLACK

GENIUS A ZERO ABBAGLIAMENTO.

Genius Black è un incasso a scomparsa totale da interni in AirCoral® per installazione in soffitto di cartongesso o laterizio. Il foro di emissione luce, di soli 20 mm di diametro, viene coestruso con un cilindro nero di alluminio anodizzato arricchendo di eleganza un prodotto puramente tecnico. L'effetto antiabbagliante del collare di colore nero rende il prodotto altamente raffinato: accentua infatti il valore estetico e rende Genius Black la soluzione ideale in tutti gli ambienti che ricercano eleganza. La parte elettrica è estraibile direttamente dal foro luce con un semplice gesto della mano, grazie alla meccanica push-pull, che facilita l'eventuale estrazione e la sostituzione della sorgente LED in caso di manutenzione.

GENIUS WITH ZERO DAZZLING.

Genius Black is a total recessed indoor luminaire of AirCoral® installable on plasterboard or brick ceilings. The light emission hole, only 20 mm wide, is co-extruded with a black cylinder of anodized aluminium which elegantly embellishes a pure technical product. The anti-reflection effect of the black collar makes the luminaire an example of great, refined style: in fact, this characteristic enhances the aesthetics of the product, making Genius Black the ideal solution for environments that require elegance. The electrical part can be extracted directly from the emission hole with a simple hand gesture. This is possible thanks to the push-pull mechanism, which facilitates the eventual extraction and replacing of the LED source in case of maintaining.

GENIUS CURVE

FORO STONDATO E FACILE MANUTENZIONE.
SISTEMA PUSH-PULL.

I volumi del Genius si ammorbidiscono e nasce Genius Curve: incasso a scomparsa totale da interni in AirCoral® per installazione in soffitto di cartongesso o laterizio, in cui la forma perfetta del cerchio acquista un nuovo potenziale livello decorativo. La luce si diffonde uniformemente nell'ambiente scivolando, elegante, sul foro di emissione stonato. Forma, luce e tecnica si incontrano per donare grande plasticità al soffitto e un'irripetibile esperienza visiva nell'ambiente. La parte elettrica è estraibile direttamente dal foro luce con un semplice gesto della mano, grazie alla meccanica push-pull, che facilita l'eventuale estrazione e la sostituzione della sorgente LED in caso di manutenzione.

*ROUNDED HOLE AND EASY MAINTENANCE.
PUSH-PULL SYSTEM.*

Genius' volumes become softer, giving birth to Genius Curve, a total recessed indoor luminaire made of AirCoral® and installable on plasterboard or brick ceilings. Its perfect circular form allows a higher level of decorative potential: light scatters uniformly in the environment, elegantly sliding on the round emission hole. Form, light and technique meet and combine, giving great plasticity to the ceiling and guaranteeing an unrepeatabe visual experience. The electrical part can be extracted directly from the emission hole with a simple hand gesture. This is possible thanks to the push-pull mechanism, which facilitates the eventual extraction and replacing of the LED source in case of maintaining.

Genius Curve

SUPERFUTUREDESIGN™

GENIUS BASIC

LUCE RETROCESSA, MINIMO INGOMBRO POSTERIORE.

La versione miniaturizzata di Genius vive ora con Genius Basic: variante dalle dimensioni più compatte, realizzata in Coral®. Apparecchio da incasso a scomparsa totale per interni, Genius Basic è in grado di soddisfare le esigenze del Contract Business, con la consueta affidabilità tecnica di Buzzi & Buzzi.

Un prodotto efficiente e dalle alte prestazioni, in grado di raggiungere 540 lm di emissione da un foro di luce da 20 mm, ma ancora più compatto e installabile in soli 80 mm di intercapedine. Come in tutta la gamma Genius, la variante Basic ha la parte elettrica direttamente estraibile dal foro luce, grazie a un nuovo sistema che facilita l'estrazione e la sostituzione della sorgente LED. L'unica apertura visibile è il foro luce da 20 mm, senza la necessità di alcuna botola di ispezione e tantomeno di interventi invasivi in caso di manutenzione.

REAR LIGHT, MINIMUM REAR DIMENSIONS.

The miniaturised version of Genius is now available with Genius Basic: a version with more compact dimensions, made in Coral®. A totally recessed luminaire for indoor use, Genius Basic satisfies Contract Business needs, with the usual technical reliability of Buzzi & Buzzi.

An efficient product with high performances, able to achieve 540 lm emission from the usual 20 mm (0.79") hole, but even more compact and installable in a cavity of only 80 mm (3.15").

As in the whole Genius range, the Basic version has an electrical part which can be removed through the light hole, thanks to a mechanism that makes it easy to pull the LED light source out and replace it. The only visible aperture is the light emission hole measuring 20 mm (0.79"), so there is no need for any inspection hatch, nor for invasive maintenance operations.

GENIUS BASIC FLAT

IL GENIUS IN SOLI 60 mm DI SPESSORE.

Apparecchio da incasso a scomparsa totale con scocca in Coral[®], ideale per applicazioni a soffitto in ambienti interni.

Genius Basic Flat è il più compatto della famiglia Genius e si caratterizza per un design che minimizza ulteriormente lo spessore della parte superiore, riducendolo a soli 50 mm.

Il consueto foro di 20 mm, eroga 540 lm e permette accesso diretto per interventi di manutenzione, grazie a un nuovo sistema che facilita estrazione e sostituzione, senza necessità di alcuna botola e tantomeno di interventi invasivi in caso di manutenzione.

GENIUS IN A THICKNESS OF JUST 60 mm.

A totally recessed luminaire with body in Coral[®], ideal for indoor ceiling-mounted applications.

Genius Basic Flat is the most compact of the Genius family characterised by a design which further minimises the thickness of the upper part, reducing it to only 50 mm (2").

The usual 20 mm (0.79") light emission hole provides 540 lm and allows direct access for maintenance work, thanks to a new system which makes removal and replacement easy, so there is no need for any inspection hatch, nor for invasive maintenance operations.

GENIUS BASIC SLOPE

GENIUS WALL WASHER IN 80 mm DI SPESSORE.

La variante di Genius Slope destinata al mondo Contract è un prodotto compatto, con possibilità di installazione in intercapedini di soli 80 mm, a soffitto e parete come segnapassi. Genius Basic Slope è un apparecchio da incasso a scomparsa totale per interni, realizzato in Coral® per questa nuova versione. Il foro luce asimmetrico, con asse inclinato di 40°, garantisce una emissione luminosa di 540 lm, con possibilità di effetto wall-washer. La parte elettrica è direttamente estraibile dal foro luce, grazie a un sistema che facilita l'estrazione e la sostituzione della sorgente LED, senza la necessità di alcuna botola di ispezione e tantomeno di interventi invasivi in caso di manutenzione.

GENIUS WALL WASHER IN A THICKNESS OF 80 mm.

The "Slope" version of Genius, designed for the Contract world is a very compact product which can be installed in a cavity measuring only 80 mm (3.15"), ceiling and wall mounted as a path lighter. Genius Basic Slope is a totally recessed luminaire for indoor use, made in Coral® for this new variant. The asymmetrical light emission hole, with a 40° angled axis, guarantees a light emission of 540 lm, with possibility of a wall-washer effect. The electrical part can be removed through the light hole, thanks to a mechanism that makes it easy to pull the LED light source out and replace it, so there is no need for any inspection hatch, nor for invasive maintenance operations.

GENIUS NAKED

UN GENIUS NUDO
ADATTO PER QUALSIASI SUPPORTO E MATERIALE.

Genius Naked è l'evoluzione della famiglia Genius, che estende il concetto di totale integrazione superficiale a qualsiasi materiale e contesto. E' un apparecchio a scomparsa totale, per installazione a soffitto in ambienti interni, che può essere installato su qualsiasi superficie: legno, cemento, specchio, marmo, moduli industriali con uno spessore da 5 mm a massimo 20 mm.

Unica parte visibile è il foro di soli 20 mm, in grado di generare un potente fascio luminoso.

Infatti la variante "Naked" mantiene tutte le prestazioni del Genius, con la parte elettrica estraibile direttamente dal foro luce, grazie alla meccanica push-pull, che facilita l'estrazione e la sostituzione della sorgente LED, senza la necessità di alcuna botola di ispezione e tantomeno di interventi invasivi in caso di manutenzione.

A BARE GENIUS
SUITABLE FOR ANY SUPPORT AND MATERIAL.

Genius Naked is the evolution of the Genius family, extending the total surface integration concept to any material and context. It is a totally recessed luminaire, for ceiling-mounted indoor installation, which can be installed on any surface: wood, cement, mirror, marble, industrial modules with a thickness from 5 mm (0.2") to a maximum of 20 mm (0.79").

The only visible part is the light emission hole of only 20 mm (0.79"), capable of generating a powerful light beam.

In fact, the "Naked" version retains all the performances of the Genius, with the electrical part which can be removed through the light hole, thanks to a push-pull mechanism making it easy to pull the LED light source out and replace it, with no need for any inspection hatch, nor for invasive maintenance operations.

TWIN GENIUS NAKED

UN GENIUS PER QUALSIASI MATERIALE.

Il design di Genius si raddoppia: Twin Genius, apparecchio da interni a scomparsa totale per installazione a soffitto, che vive ora nella sua versione "Naked", estendendo il concetto di totale integrazione superficiale a qualsiasi materiale e superficie. Dotato di due fori di emissione da soli 20 mm, l'apparecchio scompare completamente quando spento, grazie alla totale integrazione con le superfici in cui è installato: legno, cemento, specchio, marmo, moduli industriali con uno spessore da 5 mm ad un massimo di 20 mm.

L'elettronica mantiene le prestazioni del Genius, con la parte elettrica estraibile direttamente dal foro luce, grazie alla meccanica push-pull, che facilita la sostituzione della sorgente LED, senza la necessità di alcuna botola di ispezione e tantomeno di interventi invasivi in caso di manutenzione.

A GENIUS FOR ANY MATERIAL.

The Genius design has been doubled: Twin Genius, a totally recessed indoor luminaire for ceiling mounting, now available in its "Naked" version, extending the total surface integration concept to any material and surface.

Fitted with two light emission holes measuring only 20 mm (0.79"), the luminaire disappears completely when it is switched off, thanks to its total integration with the surfaces on which it is installed: wood, cement, mirror, marble and industrial modules with a thickness from 5 mm (0.2") to a maximum of 20 mm (0.79").

The electronics retain the performances of the Genius, with the electrical part which can be removed through the light hole, thanks to a push-pull mechanism making it easy to pull the LED light source out and replace it, so there is no need for any inspection hatch, nor for invasive maintenance operations.

GENIUS BASIC NAKED

IL PIÙ COMPATTO DA INSTALLARE SU QUALSIASI MATERIALE.

Apparecchio da incasso a scomparsa totale per interni, Genius Basic Naked è una variante di Genius Basic, che unisce alle sue note caratteristiche la possibilità di integrazione superficiale in qualunque contesto e materiale. Questo nuovo Genius non solo estende la consueta affidabilità tecnica di Buzzi & Buzzi al concetto di Contract Business, ma è anche installabile su legno, cemento, specchio, marmo, moduli industriali con uno spessore da 4 mm a massimo 30 mm. Inoltre, questa versione è ancora più compatta ed offre la possibilità di installazione in soli 80 mm di intercapedine.

Genius Basic Naked è la sintesi della tecnologia Buzzi & Buzzi in termini di versatilità ed efficienza: unica parte visibile è il foro di soli 20 mm, da cui eroga un flusso di 540 lm; la parte elettrica è estraibile direttamente dal foro luce, senza necessità di alcuna botola di ispezione e tantomeno di interventi invasivi in caso di manutenzione.

THE MOST COMPACT TO INSTALL ON ANY MATERIAL.

A totally recessed indoor luminaire, Genius Basic Naked is a variation of the Genius Basic, blending its characteristic notes with the possibility of surface integration in any context and material.

Not only does this new Genius extend the usual technical reliability of Buzzi & Buzzi to the Contract Business concept, but it can also be installed on wood, cement, mirror, marble, industrial modules with a thickness of from 4 mm (0.16") to a maximum of 30 mm (1.18").

This version is also more compact and can be installed in a cavity of only 80 mm (3.15").

Genius Basic Naked is the synthesis of Buzzi & Buzzi technology in terms of versatility and efficiency: the only visible part is the light emission hole measuring only 20 mm (0.79"), which provides a light flow of 540 lm; the electrical part can be removed through the light hole, so there is no need for any inspection hatch, nor for invasive maintenance operations.

GENIUS CONCRETE

LUCE INTEGRATA NEL CEMENTO FACCIA A VISTA.

Genius Concrete è la variante più rivoluzionaria della linea Genius: un apparecchio a scomparsa totale per interni, concepito per superfici in cemento faccia-vista ed installabile durante la fase di getto del calcestruzzo.

Mantiene le prestazioni del Genius, ma ha un corpo lampada semplificato che funziona come cassaforma a perdere, con la parte elettrica estraibile direttamente dal foro luce, grazie ad un nuovo brevetto che permette l'estrazione e la sostituzione della sorgente LED. L'unica apertura visibile è il foro da 23 mm, senza la necessità di alcuna scatola di ispezione ed è installabile per getti con spessore minimo di 12 mm.

INTEGRATED LIGHT IN EXPOSED CEMENT.

Genius Concrete is the most revolutionary version of the Genius line: a totally recessed indoor luminaire, designed for exposed cement surfaces and installable during the concrete casting phase.

It maintains all the performances of the Genius, but has a simplified lamp body which functions as formwork, with the electrical part removable from the light hole, thanks to a new patent which allows the LED light source to be pulled out and replaced.

The only visible aperture is the 23 mm (0.90") outlet, so there is no need for any inspection hatch, and it can be installed with a minimum concrete cover of 12 mm (0.47").

SUPERFUTUREDESIGN™

PIXEL

OLTRE 1000 lm IN 35 mm DI INGOMBRO.

Pixel, il nuovo prodotto che si ispira alla famiglia Genius, caratterizzato da linee semplici e raffinate si integra perfettamente nelle superfici in cui viene installato. Lo spazio di installazione si riduce e anche il meccanismo si semplifica. Apparecchio da interni a scomparsa totale in AirCoral® per soffitti in laterizio o cartongesso. La manutenzione della sorgente Led si effettua agevolmente attraverso il foro di emissione luce. Con un diametro di soli 16 mm e un fascio puntuale e scenografico è in grado di creare giochi di luce d'effetto attraverso la sua semplicità tecnica.

MORE THAN 1000 lm IN A SPACE OF 35 mm.

Pixel, the new product inspired by the Genius family and characterized by simple and refined lines, fits perfectly into the surfaces where it is installed. The installation space is reduced and the mechanism is also simplified. Totally disappearing indoor luminaire in AirCoral® for brick or plasterboard ceilings. The LED source maintenance is easily carried out through the emission hole. With its only Ø 16 mm diameter and a punctual and scenographic beam, it's capable of creating impactful light effects through its technical simplicity.

INZETA

PROIETTORE ORIENTABILE A SCOMPARSA.

Inzeta è un apparecchio a incasso a scomparsa totale per interni, con proiettore in alluminio montato semi-recesso su una scocca in AirCoral®, con giunto meccanico invisibile. Inclinabile di 35° e orientabile sull'asse verticale a 360°, Inzeta è caratterizzato dalla qualità della sua luce, con elevata potenza e CRI 90. Un apparecchio miniaturizzato che coniuga le caratteristiche peculiari della scomparsa totale del corpo in AirCoral® con quelle di un proiettore miniaturizzato.

ADJUSTABLE RECESSED PROJECTOR.

Inzeta is a totally recessed luminaire for indoor use, with metal projector half-recessed inside a body made of AirCoral®, with no visible mechanical joints. Inclinabile by 35° and adjustable on the vertical axis at 360°, Inzeta is characterised by the quality of its light, with high power and CRI 90. A miniaturised luminaire which blends the special total-recess characteristics of the AirCoral® body with those of miniaturized projector.

RHINO

ESTRAIBILE E ORIENTABILE.

Rhino, apparecchio da interni in Coral® per installazione a soffitto o parete di cartongesso, è un prodotto versatile e funzionale, caratterizzato da un incasso a scomparsa totale e un faretto estraibile e direzionabile, dotato di lenti intercambiabili. Rhino è in grado di illuminare gli ambienti in modo determinante, arricchendoli semplicemente grazie a giochi di luce spot e sempre diversi. Il proiettore può essere posizionato in diversi modi dalla posizione completamente esterna a retrocessa. Quest'ultima posizione è studiata per avere il minimo impatto visivo. Quando non recesso è orientabile di 360° sull'asse orizzontale e 90° sull'asse verticale.

EXTRACTABLE AND ADJUSTABLE.

Rhino, an indoor totally disappearing recessed luminaire made of Coral®, installable on plasterboard ceilings or walls, is a versatile product, characterized by an extractable recess with interchangeable lens. It enlightens spaces perfectly and in a very incisive way, enriching them with ever-changing plays of light. The projector can be oriented in several ways, in a completely external position or in a recessed one. The latter, conceived to obtain a minimal visual impact. When the projector is not recessed it is 360° adjustable on the horizontal line and 90° on the vertical one.

TAURUS

ESTRAIBILE ED ORIENTABILE
CON 1, 2, O 3 PUNTI LUCE, BIANCO O NERO.

Taurus, apparecchio da interni per installazione a soffitto o parete di cartongesso, dotato di incasso in Coral® e faretto estraibile, evidenzia con precisione ed eleganza ogni dettaglio dello spazio progettuale.

Taurus, grazie alla direzionalità e all'intercambiabilità delle lenti, risponde con precisione alle necessità di una luce precisa, decisa e concreta.

Il proiettore può essere posizionato in diversi modi, dalla posizione completamente esterna a quella retrocessa. Quest'ultima posizione è studiata per avere il minimo impatto visivo. Quando il proiettore non è retrocesso è orientabile di 360° sull'asse orizzontale e 90° sull'asse verticale. Le dimensioni compatte e il design minimale lo rendono la soluzione ideale per illuminare gli ambienti con discrezione.

EXTRACTABLE AND ADJUSTABLE
WITH 1, 2 OR 3 LIGHT POINTS, BLACK OR WHITE.

Taurus, an indoor totally disappearing luminaire installable on plasterboard ceilings or walls, with a recessed body made of Coral® and an extractable projector, underlines spaces and details with a precise and elegant beam of light. Thanks to the orientable and interchangeable lens, Taurus appropriately answers to the necessity of obtaining a sharp, precise and concrete light. The projector can be oriented in several ways, in a completely external position or in a recessed one. The latter, conceived to obtain a minimal visual impact. When the projector is not recessed it is 360° adjustable on the horizontal line and 90° on the vertical one. The solid forms and the minimal design makes this luminaire perfect for illuminating the environment in a discreet manner.

BULL

ESTRAIBILE DALL'INCASSO E ORIENTABILE.

Un occhio puntato su un elemento da valorizzare, su un arredo da enfatizzare: Bull, apparecchio da interni a scomparsa totale per installazione a soffitto di cartongesso, è composto da un incasso in Coral[®], una cassa posteriore nera in acciaio completa di proiettore orientabile, che può essere estratto dall'incasso per un puntamento preciso del fascio luminoso. Il proiettore in posizione arretrata è studiato per avere il minimo impatto visivo, è orientabile di 360° sull'asse orizzontale e di 90° sull'asse verticale, inoltre ha la possibilità di ottiche intercambiabili. Illuminare con Bull vuol dire dare risalto a precisi elementi, definendo gli spazi e stabilendo nuove prospettive.

ADJUSTABLE AND EXTRACTABLE FROM RECESSED FITTING.

An eye focused on an element to be enhanced, on a decor to be exalted: Bull, an indoor totally disappearing recessed luminaire, installable on plasterboard ceilings, is composed by a Coral[®] body, a rear black-coloured steel case provided with an adjustable spotlight, which can be extracted from the recess in order to redirect luminescent beams in a more precise way. The rear spotlight, designed for having a minimal visual impact, is 360° orientable on the horizontal line and 90° on the vertical one. With Bull, lighting means giving prominence to precise elements, defining spaces and setting new interchangeable optical perspectives.

SLICE

800 lm IN 12.5 mm DI INGOMBRO.

Slice è un apparecchio da incasso a scomparsa totale per interni, che si caratterizza per il design estremamente sottile: 12.5 mm di spessore. Grazie all'assenza di scatole di montaggio, Slice permette installazioni sia a soffitto che a parete, rimanendo all'interno del solo spessore della lastra di cartongesso, o di intonaco. Questo rivoluzionario prodotto da incasso è realizzato in AirCoral® di cui mantiene tutte le caratteristiche di scomparsa totale. L'ottica LED è in grado di emettere 800 lumen. Installabile con driver remoto, permette la manutenzione dal solo lato frontale dell'apparecchio, riducendo al minimo interventi post installazione.

800 lm IN A SPACE OF 12.5 mm.

Slice is a totally recessed luminaire for indoor use, characterised by its extremely slim design: 12.5 mm (0.49") thick. Thanks to the absence of mounting boxes, Slice can be both ceiling and wall mounted, fitted into the thickness of the drywall panel or plaster. This revolutionary recessed product is made in AirCoral® of which it maintains all its total recessed characteristics. The LED optics can emit 800 lumen. Installable with remote driver, maintenance can be carried out only from the front of the luminaire, reducing to the minimum any post-installation operations.

**SCOMPARSATA TOTALE

BELL

LAMPADA DA INCASSO CON SCURETTO INTEGRATO.

Apparecchio da interni a scomparsa totale in AirCoral® per installazione a soffitto di cartongesso o laterizio. Bell è caratterizzato da una superficie interna stondata e un vuoto perimetrale che crea una contrapposizione tra luce e ombra, presenza e assenza di materia. La sorgente arretrata crea una luce definita ma che allo stesso tempo si distribuisce morbida sia sulla superficie del corpo che nello spazio. Bell, una nuova tipologia di lampada, la cui presenza si rileva sia spenta che accesa e che conferisce una raffinata personalità agli ambienti.

RECESSED LIGHT WITH INTEGRATED SHADE.

An indoor and total disappearing luminaire of AirCoral®, Bell is installable on plasterboard or brick ceilings. It is characterised by an internal, rounded perimetral empty space creating a contrast between light and shadow, of presence and absence of matter. The backward light source casts a sharp beam which, at the same time, scatters softly both on the body surface and in the environment. Bell is a new typology of lamp whose personality is always visible, with the light switched on or off as well. This personality reflects itself in the surrounding environment too.

BUZZZ

UN GIOCO DI LUCI E OMBRE A SOFFITTO.

Un prodotto dal design esclusivo e ricercato, in cui eleganza e tecnica si fondono per dare vita ad atmosfere di luce uniche. Un apparecchio da interni in AirCoral®, un incasso a scomparsa totale, per installazione in soffitto di cartongesso o laterizio, che valorizza gli ambienti determinandone l'estetica. Buzzz ha una forma esagonale unica ed un fascio di luce asimmetrico che, uniti al vetro, creano luci suggestive sia sulle sfaccettature del corpo che all'interno dello spazio in cui viene installato. Il connubio tra tecnologia ed emozioni accende l'ambiente di mistero.

A PLAY OF LIGHTS AND SHADES ON THE CEILING.

A product with an exclusive and refined design, where elegance and technique are combined to give life to unique light atmospheres. A totally disappearing indoor recessed luminaire made of AirCoral®, installable in plasterboard or brick ceilings, able to enhance environments defining their beauty. Buzzz has a unique hexagonal shape and it emanates asymmetric beams of light which, together with the glass, create suggestive lights both on the sides of the body and within the space it is installed in. This combination of technology and emotions fills the environment with mystery.

EGGY

UNA SOLUZIONE ARRETRATA ANTIABBAGLIAMENTO.

Incasto in AirCoral® a scomparsa totale a tecnologia LED per installazione a soffitto di cartongesso o laterizio che, grazie alla sua forma, può essere utilizzato in ogni tipologia di ambiente e si presta ad un'interpretazione progettuale visionaria e dal forte impatto visivo. Con Eggy, la funzionalità di un'illuminazione discreta, avvolgente e ben distribuita, si sposa con la componente emozionale dove la forma dell'uovo si staglia sul soffitto creando una suggestione visiva. Grazie alla meccanica push-pull è possibile estrarre la parte elettrica ed avere un prodotto senza viti o molle a vista per il fissaggio della sorgente LED.

A RECESSED ANTI-DAZZLE SOLUTION.

A LED technology totally disappearing recessed luminaire made of AirCoral®, installable on plasterboard or brick ceilings that, thanks to its ovoid shape, can be used in any kind of environment and is suitable for a visionary project interpretation, with a strong visual impact. With Eggy, the functionality of a discreet illumination, embracing and well-distributed, is combined with the emotional elements, as the egg shape stands out on the ceiling creating a visual fascination. Thanks to the push-pull mechanism, it is possible to extract the electric part obtaining a product without screws or visible springs for the fixing of the LED source.

TECHNICAL FEATURES

Code	6498.AC
Type	Asymmetric beam 40° 
Material	AC: AirCoral®
Absorption capacity*	3 m ²
Weight	1.3 Kg
Mounting	Ceiling recessed
IP rating	IP20
Insulation class	III
Control gear	Constant current electronic driver (not included)
Cut out for plasterboard	145 x 145 mm
Lamp type	LED 500 mA ☑ Vf: 18 VDC
Lamp wattage	1 x 9W
Luminous efficacy	1125 lm - 3000K
Light distribution	Wide beam 40°
Fitting	-
Light colour	White 3000K White 2700K 4000K (on request)
Light hole	Ovoid 80 x 60 mm
Voltage connection	By driver (optional)
CRI	>90
Emergency	-
Energy efficiency class	A++
Note	On request available dimmable PUSH or DALI. On request available emergency.

INVISIBILE

INCASSO A PARETE E SOFFITTO CON VETRO A FILO.

Il nome evoca la caratteristica principale di questo apparecchio: Invisibile 10x10 è un apparecchio da interni in AirCoral®, un incasso per installazione in parete e soffitto di cartongesso o laterizio che si integra completamente con la superficie, raggiungendo uno straordinario risultato di scomparsa totale. Superficie e luce diventano così inscindibili, grazie anche alla presenza del vetro satinato, fissato con viti in polycarbonato bianche e completamente a filo sia con il vetro che con il corpo.

WALL OR CEILING RECESSED FITTING WITH FLUSH GLASS.

Its name evokes the main feature of this product: Invisibile 10x10 is a totally disappearing indoor recessed luminaire made of AirCoral®, installable on plasterboard or brick walls and ceilings, perfectly blending into surfaces, achieving an extraordinary complete disappearance effect. Surface and light become inseparable also thanks to the presence of satin glass, fixed with screws in white polycarbonate which are placed right at the level of both the glass material and the body.

CLASS

INCASSO A PARETE E SOFFITTO CON VETRO A FILO.

La tecnologia sposa l'eleganza per dare vita a un prodotto dal design pulito e minimale: il corpo in AirCoral® dell'apparecchio, un incasso a scomparsa totale da interni adatto per installazione in parete e soffitto di cartongesso o laterizio, è completamente invisibile. La presenza del vetro satinato, fissato con viti in policarbonato bianche e completamente a filo con il corpo, genera un cono di luce puro e dal volume netto, che avvolge le superfici sottostanti, interrompendo l'oscurità.

WALL OR CEILING RECESSED FITTING WITH FLUSH GLASS.

Technology combines with elegance to give life to a product with a clean and minimal design: the AirCoral® body of this luminaire, a totally disappearing, indoor, recessed, installable on plasterboard or brick walls and ceilings, is completely invisible. The satin glass, fixed with white polycarbonate screws perfectly positioned at the level of the body, creates a pure cone of light with a neat volume which embraces the surfaces below, breaking into darkness.

ATOM

UN SEMI INCASSO DALLE FORME SINUOSE.

La forma si coniuga con la sostanza, il design diventa l'essenza dell'eleganza, in un apparecchio dalle linee morbide e sinuose: Atom, semincasso a scomparsa totale per installazione in soffitto di cartongesso o laterizio, è una soluzione dal fascino unico. Il vetro si adagia sulle linee sinuose del corpo in AirCoral® e grazie alla finitura satinata consente al fascio di luce di diffondersi in modo omogeneo nello spazio.

Un apparecchio che fa della semplicità la sua forza, una risposta innovativa al desiderio di illuminare con stile qualsiasi ambiente.

A SEMI-RECESSED FITTING WITH SINUOUS SHAPES.

Form combines with substance and design becomes the essence of elegance in a product with soft and sinuous lines: Atom, an indoor totally disappearing semi recessed luminaire, installable on plasterboard or brick ceilings, is a solution with a unique appeal. The glass covers up the elegant lines of the AirCoral® body thanks to satin finishing touches, which allow the beams of light to uniformly scatter within the space. A luminaire with a strong yet delicate effect, an innovative answer to the desire of lighting every environment with style.

INVISILED

MINIME DIMENSIONI: 40 x 40 mm.

La luce scaturisce improvvisamente da un punto nella parete, pura e delicata si diffonde in modo omogeneo nello spazio, avvolgendo, indisturbata, tutto l'ambiente. Invisiled, incasso a scomparsa totale in AirCoral® per installazione in parete e soffitto di cartongesso o laterizio, è pensato per progetti in cui la luce deve essere protagonista. Invisiled si adatta ad ogni ambiente, regalando concretezza agli spunti del progettista, inserendosi con discrezione negli spazi.

MINIMUM DIMENSIONS: 40 x 40 mm.

Pure and delicate light suddenly springs from a spot on the wall, and it spreads out homogeneously in the space, enfolding the whole room, undisturbed. Invisiled, a totally disappearing recessed luminaire made of AirCoral®, installable on plasterboard or brick walls and ceilings, is studied for projects where light has the main role. Invisiled fits into any environment, giving concreteness to the designer's inspirations, and discreetly integrating itself into spaces.

JACOBBOX

INCASSO DIREZIONABILE.

Jacobox è un apparecchio da interni a scomparsa totale per installazione in parete e soffitto di cartongesso o laterizio realizzato in AirCoral®.

La sorgente luminosa retrocessa con meccanica a vista orientabile dona una luce precisa e puntuale, senza sacrificare l'eleganza degli spazi.

ADJUSTABLE RECESSED FITTING.

Jacobox is a totally disappearing indoor recessed luminaire, installable on plasterboard or brick walls and ceilings made of AirCoral®. With its visible and adjustable mechanic structure, the recessed luminescent source emanates a precise and punctual light without renouncing space elegance.

BITRIX

INCASSO DOPPIO ED ORIENTABILE.

Apparecchio da interni a scomparsa totale in AirCoral® per installazione in soffitto di cartongesso. Bitrix è dotato di meccanica a vista orientabile, con una sorgente retrocessa di 50 mm. Il fascio di luce emanato è orientabile di 30°, riuscendo a completare e valorizzare il progetto illuminotecnico in ogni suo dettaglio.

DOUBLE AND ADJUSTABLE RECESSED FITTING.

A total recessed indoor luminaire of AirCoral® installable on plasterboards ceilings, Bitrix is provided with visible and orientable mechanisms. It also has a tiltable recessed light source of 50 mm and its beam, adjustable up to 30°, completes and valorizes every single detail of the lighting project.

TETRIS

INCASSO TRIPLO ED ORIENTABILE.

Giocare con la luce non è mai stato così semplice come con Tetris, un incasso a scomparsa totale da interni in AirCoral® per installazione in soffitto di cartongesso dotato di meccanica a vista orientabile. La luce, emanata da tre sorgenti retrocesse di 50 mm, si incastra perfettamente all'interno del progetto architettonico in modo sempre preciso e deciso sull'oggetto da illuminare.

TRIPLE AND ADJUSTABLE RECESSED FITTING.

Playing with light has never been as easy as with Tetris, a totally disappearing luminaire made of AirCoral®, installable on plasterboard ceilings and provided with a visible and adjustable mechanic structure. Coming from three different recessed sources of 50mm each, the light perfectly suits the architectonic project, illuminating spaces and objects in a constantly precise and effective way.

RING

INCASSO ORIENTABILE.

Armonia e luce, design e semplicità, eleganza e discrezione: Ring è un incasso a scomparsa totale da interni con corpo in AirCoral® per installazione a soffitto e a parete di cartongesso o laterizio che impreziosisce gli ambienti in cui viene installato. Una luce essenziale che dialoga con un prodotto altamente tecnico. La meccanica orientabile e la sorgente retrocessa di 40 mm rendono Ring estremamente versatile e lo mantengono in equilibrio tra funzionalità e design.

ADJUSTABLE RECESSED FITTING.

Harmony and light, design and simplicity, elegance and discretion: Ring is the indoor totally disappearing recessed luminaire made of AirCoral®, installable on plasterboard or brick ceilings, that decorates the spaces it is installed in. A simple shaped light combined with a highly technical product. The directable mechanic and the 40 mm reverse light source make Ring extremely versatile and balanced between functionality and design.

BASIC ROUND

ECONOMICO, SEMPLICE E MINIMO INGOMBRO.

Le linee pure e semplici della forma geometrica per eccellenza — il cerchio — la cui armonia si incontra con la luce con l'obiettivo di impreziosire ambienti e situazioni: Basic Round è un incasso a scomparsa totale in Coral® per installazione a soffitto di cartongesso o laterizio dal design unico e minimale, perfetto per illuminare gli spazi in modo discreto ed elegante.

Un apparecchio da interni adatto ad accogliere unicamente sorgenti luminose LED, retrocesse di 20 mm rispetto al filo del soffitto, che soddisfa qualsiasi esigenza progettuale ed esalta con naturalezza le superfici in cui l'apparecchio viene installato.

CHEAP, SIMPLE AND MINIMUM DIMENSIONS.

The pure and simple lines of the geometrical shape par excellence — the circle — whose harmony come together with light to enhance spaces and situations: Basic Round is a totally disappearing recessed luminaire made of Coral®, installable on plasterboard or brick ceilings with a unique and minimal design, perfect for illuminating spaces in a discreet and elegant way. Designed for the indoor, it can be only provided with LED luminescent sources positioned 20 mm backwards from the ceiling level. Basic Round suits any architectonic projects, spontaneously emphasizing the surfaces it is installed on.

BLACK BOX

INCASSO ORIENTABILE
A 1, 2 O 3 PUNTI LUCE.

Una scatola nera da cui la luce emana tutta la sua potenza: Black Box, con corpo in AirCoral[®], è un apparecchio per interni a scomparsa totale per installazione in soffitto di cartongesso, in cui la posizione arretrata delle sorgenti luminose è studiata per avere il minimo impatto visivo. Disponibile in versione singola, doppia e tripla, Black Box è il prodotto ideale per valorizzare, attraverso la luce dettagli, oggetti e situazioni in modo deciso e preciso.

ADJUSTABLE RECESSED LIGHT
WITH 1, 2 OR 3 LIGHT POINTS.

A black box emanating light in all its power: Black Box, made of AirCoral[®], is a totally disappearing indoor recessed plasterboard ceiling flush mount, whose rearward light sources are studied to have a minimal visual impact. Available in single, double or triple version, Black Box is the ideal product to highlight details, objects and situations through light, in a moderate and precise way.

WHITE BOX

INCASSO ORIENTABILE A 1,2 O 3 PUNTI LUCE
E MINIMO INGOMBRO.

Un box prezioso da cui il fascio luminoso si sprigiona determinato: White Box, apparecchio per interni a scomparsa totale in AirCoral® per installazione in soffitto di cartongesso, grazie alla posizione arretrata delle sorgenti luminose, è pensato per avere il minimo impatto visivo all'interno del progetto architettonico, trasformando la luce in pura emozione. Disponibile nella versione singola, doppia e tripla, White Box è il prodotto ideale per valorizzare, attraverso la luce, dettagli, oggetti o situazioni in modo deciso.

*ADJUSTABLE RECESSED LIGHT WITH 1, 2 OR 3 LIGHT
POINTS AND MINIMUM DIMENSIONS.*

A precious box that emits a beam of light in a determined way: White Box, an indoor totally disappearing recessed luminaire made of AirCoral® and installable on plasterboard ceilings, is designed for having a minimal visual impact on the architectonic project, transforming light into pure emotion. This is possible thanks to the rearward position of the light sources. Available in three versions — single, double or triple —, White Box is the ideal product to incisively valorize details, objects and settings through light.

ALKABOX

UN BOX PER MOLTEPLICI FARETTI.

Alkabox, apparecchio da interni, incasso installabile in soffitti di cartongesso, un "case" vuoto atto ad accogliere i faretti ad incasso adatti ad ogni necessità, risultando in uno straordinario effetto di totale scomparsa grazie a linee pulite e design essenziale. Il prodotto è disponibile in 3 versioni a seconda delle esigenze: adatto ad ospitare faretti da incasso standard con dimensioni Ø 73/158 mm e ghiera max Ø 88/178 mm. Coniugando un'estrema versatilità a uno stile unico, Alkabox dona carattere agli ambienti in cui viene installato. Realizzato in Coral[®], risulta estremamente liscio al tatto e allo stesso tempo resistente agli urti e ai graffi.

A BOX FOR MULTIPLE SPOTLIGHTS.

Alkabox, an indoor recessed luminaire, installable on plasterboard ceilings, and fit for multiple types of reflectors thanks to its whole "case". It is able to achieve an extraordinary effect of total disappearance thanks to its clean lines and essential design.

Available in 3 versions depending on the necessity: with Ø 73/158 mm body dimensions and max Ø 88/178 mm ferrule, the product combines an extreme versatility to a unique style, to characterize the spaces it is installed in. Made of Coral[®], it is very smooth to the touch yet very resistant to shocks and scratches.

NEFI

INCASSO CON VETRO RETROCESSO,
MASSIMA INVISIBILITÀ.

Un fascio luminoso che attraversa il buio, determinando un nuovo equilibrio nello spazio abitativo. Luce e ombra si alternano, giocano con gli arredi, fondono e compongono atmosfere dal fascino unico e delicato: Nefi, apparecchio da interni a scomparsa totale in AirCoral® per installazione in soffitto di cartongesso o laterizio, è dotato di un vetro satinato per un'armoniosa diffusione della luce. Design e tecnologia, geometria ed eleganza per inondare gli ambienti di luce viva.

*RECESSED FITTING WITH REAR GLASS,
MAXIMUM INVISIBILITY.*

A light beam that breaks darkness, establishing a new balance inside the living space. Light and shadows alternate, playing with furniture, creating atmospheres with a unique and delicate charm: Nefi, a totally disappearing indoor recessed luminaire made of AirCoral®, installable on plasterboard or brick ceilings, is equipped with a satined glass, creating an armonious diffusion of light. Design and technology, geometry and elegance to flood the space with bright light.

NIMBUS

INCASSO CON VETRO RETROCESSO,
MASSIMA INVISIBILITÀ.

Apparecchio da interni a scomparsa totale in AirCoral® per installazione in soffitto di cartongesso o laterizio, Nimbus è pensato per diventare parte integrante del soffitto e scomparire completamente alla vista una volta installato. Il vetro satinato diffonde la luce nell'ambiente, così da valorizzarne gli spazi, trasformandoli ogni volta in uno spettacolo da scoprire, determinando precisi percorsi di luce caratterizzati da uno stile esclusivo che parla la lingua del design.

*RECESSED FITTING WITH REAR GLASS,
MAXIMUM INVISIBILITY.*

A recessed indoor system made of AirCoral® for plasterboard or brick ceilings designed to become an integral part of the ceiling, Nimbus is completely disappearing from the view once installed. Its satin glass diffuses light in the environment, enhancing the spaces, transforming them in a sight to rediscover every time, defining precise light paths with a distinctive style that speaks the language of design.

FOCUS

INCASSO CON VETRO RETROCESSO E FORME SINUOSE.

Un prodotto che delinea la strada dell'architettura contemporanea, con le sue linee pulite e il design geometrico: Focus, un apparecchio da interni, un incasso a scomparsa totale per installazione a soffitto di cartongesso o laterizio. Il prodotto scompare, per dare spazio solo al fascio luminoso, che illumina, evidenzia e arreda gli spazi in cui viene installato. Il corpo di Focus è realizzato in AirCoral®, per una perfetta combinazione di design e tecnologia all'avanguardia, attenta all'ambiente e alla qualità dell'aria che respiriamo.

RECESSED FITTING WITH REAR GLASS AND SINUOUS SHAPES.

Outlining the path of contemporary architecture, with its clean lines and geometric design: through its light Focus, a totally disappearing indoor recessed luminaire, installable on plasterboard or brick ceilings. This product disappears, in order to give way to the light beam alone, which lights up, points out and decorates the spaces it is installed in. The body of Focus is made of AirCoral®, for a perfect combination of design and cutting-edge technology, with particular attention to the environment and air quality.

ZOOM

INCASSO CON VETRO RETROCESSO E FORME SINUOSE.

Luce che valorizza i dettagli, che illumina con delicatezza, per arredare in modo innovativo: Zoom è un incasso da interni a scomparsa totale per installazione in soffitto di cartongesso. Il corpo in AirCoral® è pensato per diventare parte integrante del controsoffitto e sparire completamente alla vista, in modo da dare assoluta importanza al fascio luminoso.

RECESSED FITTING WITH REAR GLASS AND SINUOUS SHAPES.

A light that enhances details, that illuminates gently, to decorate in an innovative way: Zoom is an indoor totally disappearing recessed luminaire, installable on plasterboard ceilings. Its body in AirCoral® is designed to become an integral part of the plasterboard ceiling and to completely disappear from the view in order to give absolute importance to the light beam.

BILD

MINIMALISMO E SEMPLICITÀ.

Geometria e luce, eleganza e semplicità: Bild è incasso a scomparsa totale da interni con corpo in Coral® per l'installazione a soffitto di cartongesso o laterizio. La linearità diventa base di partenza per realizzare soluzioni uniche, dove il fascio di luce diventa protagonista assoluto all'interno degli ambienti. L'assenza di viti o ghiera nel corpo dell'apparecchio consente straordinari risultati di scomparsa totale: l'apparecchio diventa parte integrante delle superfici in cui viene installato. Il vetro, satinato e recesso, posato in appoggio senza l'ausilio di sostegni meccanici, contribuisce a creare una luce diffusa nell'ambiente.

MINIMALISM AND SIMPLICITY.

Geometry and light, elegance and simplicity: Bild is a totally disappearing indoor recessed luminaire made of Coral®, installable on plasterboard or brick ceilings, whose linearity becomes the starting point to create unique solutions, where the light beam becomes the absolute protagonist of indoor spaces. The lack of screws or ring nuts in the body of this product allows an extraordinary total disappearance: the luminaire becomes an integral part of the surfaces it is installed on. The satin and recessed glass, laid without the aid of mechanical supports, contributes to creating a scattered light.

MAXI BILD

MINIMALISMO E POTENZA LUMINOSA.

Il design lineare di Maxi Bild, che si integra nello spazio, crea una luce decisa e delicata che esalta la purezza delle forme. Incasso a scomparsa totale da interni in Coral® per installazione a soffitto di cartongesso o laterizio.

Sintesi di efficienza ed eleganza, Maxi Bild consente infinite soluzioni progettuali: un inserto perfetto per comporre mosaici di luce ricchi di fascino. La presenza del vetro satinato, in appoggio, contribuisce a creare una luce nitida e diffusa nell'ambiente.

MINIMALISM AND LIGHT POWER.

Maxi Bild's linear design, that blends with the environment, creates a decisive and delicate light that exalts the purity of shapes. A totally disappearing indoor recessed luminaire made of Coral®, installable on plasterboard or brick ceilings.

A combination of efficiency and elegance, Maxi Bild allows infinite project solutions: it is the perfect insert for creating light mosaics full of fascination. The satin glass, laid in support, emanates a neat and scattered light within the environmental setting.

RIM

MINIMALISMO E SEMPLICITÀ.

Lo spazio e la luce si fondono, composti dalla stessa sostanza, grazie a Rim, apparecchio da interni a scomparsa totale in Coral® per installazione a soffitto di cartongesso o laterizio.

La luce del Rim, diffusa uniformemente grazie al vetro satinato, interpreta il ruolo di protagonista assoluta avvolgendo lo spazio.

MINIMALISM AND SIMPLICITY.

Space and light become the same substance by Rim, an indoor totally disappearing recessed luminaire made of Coral®, installable on plasterboard or brick ceilings. Rim's light, uniformly scattered within the spaces thanks to the presence of satin glass, features as the main protagonist of the environment it softly embraces.

MAXI RIM

MINIMALISMO E POTENZA LUMINOSA.

La purezza e la perfezione della luce trovano perfetta rappresentazione in Maxi Rim, apparecchio da interni a scomparsa totale in Coral® per l'installazione a soffitto di cartongesso o laterizio, la cui forma circolare si integra negli ambienti con eleganza. Un cerchio luminoso caratterizzato da un vetro satinato che genera un fascio di luce netto e concreto, come un faro che guida alla scoperta dello spazio costruito, delicato e allo stesso tempo deciso, dando vita a scenografie ogni volta diverse.

MINIMALISM AND LIGHT POWER.

The purity and perfection of light are perfectly represented by Maxi Rim, a totally disappearing indoor recessed luminaire, made of Coral® and installable on plasterboard or brick ceilings. It has a circular shape which elegantly integrates itself with the surrounding spaces. A bright sphere in satin glass which creates a neat and concrete beam, like a headlight guiding to the discovery of architectonic spaces, in a delicate yet sharp manner, giving life to ever new light settings.

LYS

MINIMALISMO E SEMPLICITÀ.

Nel Lys, apparecchio da interni a scomparsa totale per installazione a soffitto di cartongesso o laterizio, la resistenza del Coral® si unisce alla delicatezza del vetro satinato extra white retrocesso 5 mm. Performance e diffusione per una luce unica, un quadrato perfetto che conferisce rinnovato stile alle superfici.

MINIMALISM AND SIMPLICITY.

In Lys, a totally disappearing indoor recessed luminaire, installable on plasterboard or brick walls and ceilings, Coral®'s strength merges with the extra-white 5mm recessed satin glass delicacy of the covering. Performances and distribution for a unique light, a perfect square that lends an improved style to surfaces.

NOVA

INCASSO A SCOMPARSA DAI BORDI STONDATI.

Un incasso a scomparsa totale da interni in AirCoral® per installazione in soffitto di cartongesso caratterizzato da un foro luce stonato in grado di donare grande plasticità al soffitto. Il fascio luminoso creato da Nova accentua l'effetto di morbidezza delle superfici su cui è installato e degli ambienti.

TOTALLY RECESSED FITTING WITH ROUNDED EDGES.

This indoor recessed lighting system made of AirCoral® has a rounded light hole and a total disappearance effect into plasterboard ceilings able to give great plasticity to the ceiling. The light created by Nova emphasizes the smooth effect given by the surfaces it is installed on.

SUPERNOVA

UNA LAMPADA DA INCASSO
MA ANCHE UNA BOTOLA DI ISPEZIONE.

Un'esplosione luminosa, un dettaglio di luce che all'improvviso si staglia nell'ambiente conferendo un effetto di morbidezza delle superfici, illuminandolo in modo deciso. Supernova è un apparecchio da interni a scomparsa totale con corpo in AirCoral® a luce diretta per installazione in soffitto di cartongesso che dona vita ai particolari costruttivi.

Il foro luce stondato esalta la plasticità dei soffitti, rispondendo alle esigenze architettoniche contemporanee. La parte elettrica di Supernova può essere sollevata e **utilizzata come botola di accesso per l'ispezione** del controsoffitto.

*A LIGHT WITH RECESSED FITTING
BUT ALSO AN INSPECTION HATCH.*

*A bright explosion, a detail of light that suddenly stands out in the spaces, illuminating in a decisive way. Supernova is a totally disappearing direct light recessed indoor luminaire made of AirCoral®, installable on plasterboard ceilings, perfect to enlighten architectural details. The rounded light hole creates a decisive light to enhance the plasticity of the ceiling, satisfying the contemporary architectural requests. The electric part of Supernova can be lifted from the support and **be used as trapdoor for the inspection** of the false ceiling.*

POLARIS

UNA CUPOLA DI LUCE
MA ANCHE UNA BOTOLA DI ISPEZIONE.

Incasto a scomparsa totale da interni in AirCoral® a luce indiretta per installazione in soffitto di cartongesso, Polaris è dotato di una cupola realizzata in un materiale composito alleggerito, in grado di riflettere la luce emessa dalla sorgente luminosa nascosta e diffonderla in modo indiretto nello spazio. Non è semplicemente un apparecchio illuminante ma anche un prezioso elemento che parla la lingua della funzionalità. La cupola del Polaris, infatti, può essere sollevata e **utilizzata come botola di accesso per l'ispezione** del controsoffitto.

A DOME OF LIGHT
BUT ALSO AN INSPECTION HATCH.

*Polaris is a totally disappearing direct light recessed indoor luminaire made of AirCoral®, installable on plasterboard ceilings. It has a bright cupola made out of a composite unloaded material capable of reflecting the source light and spread it out indirectly in the room. Not just a light source but also a precious furniture item, that speaks the language of functionality. As a matter of fact, Polaris can be lifted from the support and **be used as trapdoor for the inspection** of the false ceiling.*

ARGIA

LA VALORIZZAZIONE DELLA "LAMPADINA".

Apparecchio illuminante in AirCoral® pensato in sottrazione di materia, per installazione in parete e soffitto di cartongesso o laterizio. Plasticità e versatilità sono le sue caratteristiche principali: due le versioni disponibili, per adattarsi a tutte le esigenze illuminotecniche. Argia crea una luce morbida e accogliente che ha un preciso obiettivo: avvolgere gli ambienti, in modo discreto in un delicato gioco di luci e ombre.

VALORISATION OF THE "BULB".

A lighting fixture made of AirCoral® thought without material, installable on plasterboard or brick walls and ceilings. Plasticity and versatility are the main features: two versions available, to adapt to every lighting design need. Argia creates a warm and welcoming light with a specific goal: to wrap spaces up, in a discreet and noninvasive way in a delicate play of lights and shadows.

LENTIL

UN SEGNAPASSO DAL MINIMO INGOMBRO.

Indicare percorsi, creare composizioni, accentuare dettagli: Lentil è incasso a scomparsa totale in AirCoral® per installazione in parete e soffitto di cartongesso o laterizio che definisce gli spazi suggerendo emozioni precise e delicate. Un segnapasso dallo stile unico nella sua essenzialità, con parabola wall-washer che sfuma la luce, per un delicato risultato finale che risponde alle esigenze di progettisti e committenti.

A PATH LIGHTER WITH MINIMUM DIMENSIONS.

Pointing out paths, creating compositions, highlighting details: Lentil is a totally disappearing indoor recessed luminaire made of AirCoral®, installable on plasterboard or brick walls and ceilings that defines architectures suggesting precise and delicate emotions. A walkway source of lighting, with a unique style in its simplicity and a wall-washer parabola which blends light for a delicate result that answers the needs of designers and customers.

BLADE

SISTEMA MODULARE E TAGLIABILE A MISURA.

Blade è un sistema modulare da interni a scomparsa totale in AirCoral® per l'installazione a parete e soffitto di cartongesso o laterizio. Una lama di luce che fende il buio, che segna i percorsi, che determina gli spazi interni. Blade può essere utilizzato a moduli multipli con una o due sorgenti luminose contrapposte che illuminano il corpo interno.

Integrato nella parete o nel soffitto, crea scenografie luminose dal fascino unico e suggestivo.

MODULAR SYSTEM WHICH CAN BE CUT TO MEASURE.

Blade is a totally disappearing indoor recessed luminaire made of AirCoral®, installable on plasterboard or brick walls and ceilings. A blade of light that can be used in multiple ways, creating actual bright cuts inside walls. Blade can be installed with one or two counterposed light sources that illuminate the body. Integrate inside walls or ceilings, it highlights paths and defines spaces.

PHANTOM

INCASSO WALL WASHER DI PICCOLE DIMENSIONI.

Le superfici sono valorizzate da Phantom, un incasso per interni a scomparsa totale in Coral® per l'installazione in parete e soffitto di cartongesso o laterizio caratterizzato da una parabola che crea una luce dall'effetto wall washer. Le linee pulite ed eleganti conferiscono un valore aggiunto alla luce, enfatizzando i percorsi, e rendendo Phantom perfetto per impieghi sia come luce decorativa che d'accento oppure come segnapasso. Un fantasma che ritaglia spiragli luminosi negli ambienti, abbracciando con delicatezza gli arredi e le superfici.

SMALL WALL WASHER RECESSED FITTING.

Phantom, an indoor totally disappearing recessed luminaire made of Coral® installable on plasterboard or brick ceilings and walls, is characterized by a parabola that creates a wall washer light effect. Its clean and elegant lines give an added value to the light, and make it perfect to be used as a decoration, to emphasize a place or as a footpath. A ghost that cuts off luminous openings in the ambients, encompassing delicately both furniture and surfaces.

GHOST

INCASSO WALL WASHER.

Ghost scompare nelle superfici, si integra con la materia, plasma e modella pareti e soffitti: un vero fantasma luminoso che dà vita a scenografie dal design esclusivo, caratterizzato da una parabola wall-washer; sintesi perfetta di efficienza ed eleganza. Discreto e lineare, l'apparecchio per interni a scomparsa totale per installazione in parete e soffitto di cartongesso o laterizio è prodotto con l'esclusivo materiale AirCoral®. Ghost si presenta come una soluzione versatile all'interno del progetto architettonico, potendo adattarsi ad impieghi sia come luce d'accento, sia decorativa e segnapasso.

WALL WASHER RECESSED FITTING.

Ghost disappears inside surfaces, integrating with matter, moulding and shaping spaces and ceilings: a real bright ghost that gives life to sceneries with an exclusive design and a parabola-shaped body that creates a wall-washer light effect; perfect combination of efficiency and elegance.

Discrete and linear, the front body of this totally disappearing indoor recessed luminaire, installable on plasterboard or brick walls and ceilings, is made of AirCoral®. Ghost offers a wide range of solutions for architectonic projects, as it can be used as underlying, decorative or guiding light.

SPIRIT

INCASSO WALL WASHER.

Luce che arreda, semplicemente con la forza della purezza e del design: Spirit è un apparecchio da interni a scomparsa totale in AirCoral® per installazione in parete e soffitto di cartongesso o laterizio. È un incasso che cambia la percezione degli spazi, costruendo scenografie suggestive, grazie alle sue forme geometriche precise; gli ambienti prendono vita in modo unico attraverso una luce con effetto wall-washer.

WALL WASHER RECESSED FITTING.

A light that decorates, simply by force of purity and design: Spirit is an indoor totally disappearing product made of AirCoral®, installable on plasterboard or brick walls and ceilings. It is a recessed luminaire which changes space perception, building suggestive light sceneries thanks to its precise geometric forms; the environment comes to life through a wall-washer light effect.

GLOBE

INCASSO WALL WASHER.

Elegante, un design circolare che inonda gli ambienti di luce, prestandosi a composizioni originali a parete e soffitto, creando atmosfere delicate e, allo stesso tempo, ricche di stile. Globe è un apparecchio da interni a scomparsa totale per installazione in parete e soffitto di cartongesso o laterizio con corpo realizzato in AirCoral®. Globe crea con la sua parabola wall-washer un cerchio luminoso che ha un preciso obiettivo: attribuire alla luce il ruolo di assoluta protagonista regalando un valore aggiunto ad ogni spazio in cui viene installato.

WALL WASHER RECESSED FITTING.

Elegant, a circular design that floods spaces with suffused lighting, creating delicate and stylish atmospheres. Globe is a totally disappearing indoor recessed luminaire, installable on plasterboard or brick walls and ceilings, with a body made of AirCoral®.

Globe creates with its wall-washer parabola a luminous circle that has a precise aim: giving light the role of absolute protagonist, adding value on any space it is installed in.

MARKUS

SISTEMA MODULARE PER CREARE CANALI DI LUCE.

Markus è un sistema modulare da interni in fila continua a scomparsa totale con corpo in AirCoral®, per installazione in parete e soffitto di cartongesso o laterizio che si compone nello spazio dando vita a un dettaglio di luce continua, un inserto luminoso che dà carattere agli spazi creando scenografie in cui la luce è assoluta protagonista.

Gli spazi diventano così materia da modellare tra le mani del progettista: la luce si trasforma in un canale di pura emozione.

MODULAR SYSTEM TO CREATE CHANNELS OF LIGHT.

Markus is totally disappearing continuous line modular indoor system made of AirCoral®, installable on plasterboard or brick walls and ceilings that arranges itself in the space giving life to a continuous detail of light, a bright insert that gives character to all spaces, creating settings where light plays the main part.

In this way, spaces become matter to be moulded by the hands of the designer: light becomes a channel of pure emotion.

INVIDIA

INCASSO A LINEA CONTINUA.

Invidia, sistema modulare da interni in linea continua a scomparsa totale in AirCoral® per installazione in parete e soffitto di cartongesso.

L'integrazione totale consente di definire gli spazi architettonici sia a parete che a soffitto; la particolare sovrapposizione delle sorgenti luminose evita qualsiasi cono d'ombra e lo schermo in policarbonato satinato permette una diffusione omogenea e delicata, in grado di definire precisi percorsi di luce continui e concettualmente infiniti.

RECESSED FITTING WITH CONTINUOUS LINE.

The perfect combination of light, architecture and emotion: thanks to Invidia, a totally disappearing continuous line modular indoor system made of AirCoral®, installable on walls and plasterboard ceilings. This complete integration inside walls or ceilings allows the definition of architectural spaces; the particular overlapping of light sources avoids any kind of "shadow cone" and its satined polycarbonate screen allows for a uniform and delicate lighting, able to define precise, continuous bright paths.

GAP

SISTEMA DI LUCE CONTINUA E INDIRECTA.

Quando la luce deve essere protagonista indiscussa Gap si integra totalmente con le superfici, dando spazio al fascio luminoso: linearità, geometria, semplicità per un rigore che non è mai scontato e che racconta, a chi lo osserva, qualcosa di nuovo. Gap è un sistema modulare da interni in linea continua a scomparsa realizzato in AirCoral®, che definisce spazi e volumi architettonici sia a parete che a soffitto creando tagli di luce che esaltano le superfici adiacenti con effetto wall-washer.

La particolare sovrapposizione delle sorgenti luminose evita qualsiasi cono d'ombra: GAP, una volta installato, è studiato per diventare parte integrante delle superfici.

CONTINUOUS AND INDIRECT LIGHT SYSTEM.

When light has to be the main protagonist: Gap totally integrates with all surfaces, giving way to the light beam: linearity, geometry, simplicity for a never ordinary precision which tells something new to those who are looking at it. Gap is a continuous line modular system made of AirCoral®, able to define both wall and ceiling architectural spaces and volumes creating blades of light which exalt adjacent surfaces with their wall-washer effect. The particular overlapping of light sources avoids any kind of shadow cone: once installed, Gap is studied to become an integral part of false ceilings.

END

SISTEMA DI LUCE CONTINUA E INDIRECTA A SEMINCASSO.

Tagli di luce che esaltano le superfici, creando percorsi precisi all'interno degli spazi: la luce diventa protagonista grazie ad End, sistema modulare in linea continua da interni a scomparsa totale in AirCoral® per installazione in parete o soffitto di cartongesso. La particolare sovrapposizione delle sorgenti luminose evita qualsiasi cono d'ombra, per un effetto luminoso wall-washer puro e incredibilmente scenografico. La luce si trasforma in emozione, delicato elemento d'arredo per gli ambienti più raffinati.

SEMI-RECESSED CONTINUOUS AND INDIRECT LIGHT SYSTEM.

Cuts of light that exalt surfaces, creating precise paths inside spaces: light becomes a protagonist thanks to End, a continuous line modular system for indoor spaces made of AirCoral®, installable on walls or on plasterboard ceilings. The particular overlapping of light sources avoids any kind of shadow cone, for a pure and incredibly scenographic wall-washer lighting effect. Light becomes emotion, a delicate decorative element for the most refined environments.

UNLEAF

UN TAGLIO DI LUCE NELLA PARETE.

Unleaf è un incasso a scomparsa totale in AirCoral® installabile a parete e soffitto di cartongesso o laterizio che caratterizza gli ambienti: un taglio perfetto nella parete, un tocco originale all'interno del progetto architettonico. La superficie del prodotto affonda nella parete, che viene letteralmente modellata. Una luce d'accento, una lampada dal design ricercato, di una raffinatezza unica, che si riflette totalmente nella luce d'atmosfera emanata.

A SHAFT OF LIGHT ON THE WALL.

Unleaf is a total recessed luminaire made of AirCoral® and installable on plasterboard or brick walls and ceilings. A perfect cut on the wall, it shapes spaces and architectonic projects with an original luminescent touch. The product surface sinks into the wall, modelling it through light. An underlying, embellishing beam for a lamp of peculiar design and unique elegance; characteristics reflected in the suggestive atmosphere recreated in the environment by the luminaire.

LEAF

LA PARETE SI PLASMA ALLA LUCE.

Una luce unica quella di Leaf, un semi incasso a scomparsa totale, installabile orizzontalmente o verticalmente, a parete o a soffitto di cartongesso o laterizio. Il suo design evoca eleganza e purezza: studiato per diventare parte integrante della parete o del controsoffitto, la sua applicazione crea un effetto inedito. Disegnato con l'obiettivo di esaltare le speciali caratteristiche del materiale AirCoral®, esprime una perfetta sintesi tra la purezza formale che caratterizza il prodotto e la materia.

THE WALL MOULDS ITSELF TO THE LIGHT.

The light of Leaf, an indoor semi recessed luminaire, installable horizontally or vertically on plasterboard or brick walls or ceilings, is unique. Its design evokes elegance and purity: specifically studied to become an integral part of walls or false ceilings, its installation creates innovative effects. Designed to exalt the special features of AirCoral®, it expresses a perfect combination of the formal purity typical of this product and the features of the material.

TECHNICAL FEATURES

Code	2988.AC
Type	Wall and ceiling half recessed 
Material	AC: AirCoral®
Absorption capacity*	26.2 m ²
Weight	9.2 Kg
Mounting	Wall and ceiling mounting
IP rating	IP20
Insulation class	I
Control gear	Dimmable constant current driver
Cut out for plasterboard	410 x 410 mm
Lamp type	LED 350mA 
Lamp wattage	1 x 6.5W
Luminous efficacy	810 lm - 3000K
Light distribution	Wide beam 120°
Fitting	-
Light colour	White 3000K White 2700K 4000K (on request)
Light hole	-
Voltage connection	220-240V · 50/60Hz
CRI	>90
Emergency	-
Energy efficiency class	A ⁺
Note	Trailing-edge and leading-edge dimming (20 - 100%).

NASTRO

SEMI INCASSO.

Un magico effetto sulla parete, un'elegante fascia luminosa che arreda gli ambienti in cui viene installata: Nastro, semi incasso a scomparsa totale in AirCoral®, adatto per installazione in parete o soffitto di cartongesso o laterizio, compone armonie di luce, impreziosendo le superfici con un design unico e ricercato. La presenza del vetro satinato permette alla luce di diffondersi nello spazio delicatamente. Studiata per diventare parte integrante del muro o del controsoffitto, installabile sia in orizzontale che verticale, la sua applicazione crea "movimento" delle forme e dei volumi, per un effetto luminoso dal fascino discreto.

SEMI RECESSED.

A magical effect on the wall, an elegant bright band that decorates the environments it is installed in: Nastro, a totally disappearing semi recessed luminaire made of AirCoral® installable on plasterboard or brick walls and ceilings, composes harmonies of light, enhancing architectures with a unique and refined design. The satin glass allows the light to spread in a very delicate way. Designed for becoming an integral part of the wall or of the false ceiling and installable both horizontally or vertically, it creates a "moving" effect of shapes and volumes, reproducing an atmosphere of discreet fascination.

MOTUS

SEMI INCASSO.

Regalare movimento alle forme e ai volumi attraverso l'illuminazione: grazie a Motus, semincasso a scomparsa totale da interni in AirCoral® per installazione in soffitto di cartongesso o laterizio, gli spazi prendono vita in un gioco di luci e ombre. L'apparecchio diventa parte integrante del controsoffitto, inserendosi nello spazio con delicata eleganza.

SEMI RECESSED.

Giving movement to shapes and volumes through lighting: thanks to Motus, an indoor totally disappearing semi recessed luminaire made of AirCoral®, installable on plasterboard or brick ceilings, architectures come alive in a play of lights and shadows. This product becomes an integral part of the false ceiling, inserting itself in the space with delicate elegance.

Surface

Light and design in a unique body

PIPEDO

La geometria è il punto di partenza per la realizzazione di un prodotto dal design pulito e minimale: Pipedo è una lampada a parete da interni in AirCoral® che genera una luce indiretta, rivolta verso l'alto con il preciso obiettivo di accendere e portare a nuova vita i dettagli più nascosti. La luce diventa materia con cui plasmare gli ambienti, elemento concreto per una qualità visiva ottimale.

Geometry is the starting point to create a product with a clean and minimal design: Pipedo is an indoor wall lamp made of AirCoral® that emits an indirect light, facing upwards and with a precise goal, to highlight and bring new life to the most hidden details. Light becomes substance to mould spaces with, a concrete element for an optimal visual quality.

PIPEDINO OPEN

Pipedino Open è una lampada a parete da interni a biemissione in AirCoral® che genera una luce concreta, una guida omogenea attraverso le pareti. Una distribuzione luminosa diffusa, simmetrica e regolare; una luce diretta e indiretta. Le pareti, il soffitto, i complementi d'arredo vengono valorizzati in ogni dettaglio, grazie a una luce che regala qualità visiva.

Pipedino Open is an indoor bi-emission wall lamp made of AirCoral® that emanates a concrete light, a uniform guide throughout walls. A diffused light distribution, symmetrical and regular; a direct and indirect light. Walls, ceilings and furniture all get to be enhanced in detail, thanks to a light that gives visual quality.

YANG

Yang è una lampada a parete da interni a biemissione in AirCoral® dalla forma sfaccettata. Intreccio di superfici inclinate che si intersecano, su cui la luce contribuisce a creare una contrapposizione di chiaro scuri. Yang diffonde nell'ambiente una luce accogliente e allo stesso tempo non invasiva.

Yang is a bi-emission indoor lamp made of AirCoral® and installable on walls. It has a multifaceted form, a twine of inclined surfaces crossing each other on which the emanated beam plays, creating a juxtaposition of light and shadow. Yang scatters a welcoming light which does not invade spaces, but embraces them.

TECHNICAL FEATURES

Code	2826.AC
Type	Wall lamp 
Material	AC: AirCoral®
Absorption capacity*	11.5 m ²
Mounting	Wall mounting
IP rating	IP20
Insulation class	I
Control gear	Dimmable constant current driver
Lamp type	LED 350 mA 
Lamp wattage	2 x 8W
Luminous efficacy	2 x 1340 lm - 3000K
Light distribution	Wide beam 120°
Fitting	-
Light colour	White 3000K White 2700K 4000K (on request)
Voltage connection	220-240V · 50/60Hz

Note	Satin glass included. Trailing-edge and leading-edge dimming (20 - 100%).

* The absorption capacity per m³ calculated by the American organization TCNA (Tile Council of North America) is measured for an average room of 2.7 m in height and therefore expressed in m²

SUPERFUTUREDESIGN™

YIN

Yin, lampada a parete da interni a biemissione in AirCoral® dalla forma sfaccettata, genera una luminosità che si relaziona con lo spazio e il prodotto stesso. La luce emessa, infatti, crea una contrapposizione di luci e ombre sulla superficie del prodotto, la forma invece rompe la linearità delle pareti, imponendo la sua presenza in un modo originale.

Yin, a bi-emission indoor lamp of AirCoral® installable on walls, has a multifaceted form which creates a light capable of interacting with the space the product is placed in and with the product itself. The emanated beam, in fact, generates a juxtaposition of light and shadow on the surface of the luminaire, while the form breaks the walls linearity, imposing its presence in a very original way.

TECHNICAL FEATURES

SUPERFUTUREDESIGN™

LINEA 5

SISTEMA MODULARE TAGLIABILE A MISURA.

Linea 5 è un sistema modulare a parete da interni in AirCoral® con possibilità d'installazione in fila continua: una luce indiretta adatta ad ogni ambiente grazie alla possibilità di personalizzare la lunghezza dei moduli e tagliarli a 45° per ottenere angoli interni ed esterni. Un prodotto che permette di creare linee potenzialmente infinite, stabilendo regole sempre nuove all'interno della progettazione illuminotecnica: pulizia formale e luce pura per una soluzione elegante e discreta che si pone al servizio dei materiali e dei volumi, giocando un ruolo di primo piano nella definizione degli spazi. La particolare sovrapposizione delle sorgenti luminose evita qualsiasi cono d'ombra, per un effetto uniforme e suggestivo.

MODULAR SYSTEM WHICH CAN BE CUT TO MEASURE.

Linea 5 is an indoor wall system made of AirCoral®, installable in a continuous line: an indirect light perfect for any environment thanks to its linear modules that can be cut to the desired length and at 45° to get internal and external angles.

A product that can create endless light lines, establishing new rules inside illuminating engineering projects: formal purity and pure light for an elegant and discreet solution at the service of materials and volumes, playing a prominent role in the definition of spaces.

The peculiar overlapping of the light sources avoids any shadow cones, creating a uniform and suggestive effect.

EXAMPLE OF INSTALLATION

Note

Attention, for creating luminous continuity without shadow cones it is recommended to place on the electrical parts from a minimum of 80 mm to a maximum of 180 mm

Example of application in continuous line with module LINEA 5 for 2500 mm:

- 2 pcs of empty modules code 9100.AC length 1000 mm each
- 2 pcs of lateral closing parts length 250 mm each; derives cutting the desired length of the module code 9020.AC (see drawing)

Example for applied connections:

- 3 pcs connections code 8101 Fluo T5 21W length 915 mm; placed on for 120 mm each

MODUS

Il modo perfetto per illuminare con stile ed eleganza un ambiente: Modus è una lampada a parete da interni in AirCoral® dal design lineare, che si integra nelle architetture arricchendole semplicemente con la sua presenza. Un design senza tempo che combina estetica e tecnologia ponendosi al servizio dei materiali e dei volumi.

The perfect way to light up a room with style and elegance: Modus is an indoor wall lamp made of AirCoral® with a linear design, that perfectly fits inside architectures, enhancing them just with its presence. A timeless design that combines aesthetics and technology at the service of materials and volumes.

MAXIMAL

Maximal è una lampada a parete da interni in AirCoral® che parla la lingua del design. Essenziale nelle forme, può rispondere a tutte le esigenze. La luce diventa materia per definire gli spazi, giocando con gli arredi per creare accenti luminosi dal fascino unico. Un prodotto che si inserisce con originalità all'interno di qualsiasi progetto.

Maximal is an indoor wall lamp made of AirCoral® that speaks the language of design. Essential in its shape, it can answer to all the needs. Light becomes substance to define spaces, playing with furniture to create bright accents with a unique charm. A product that harmonizes with originality inside any project.

MINIMAL

Minimalista nello stile, altamente performante nella resa luminosa: Minimal è una lampada a parete da interni in AirCoral®, a luce indiretta che gioca con gli spazi costruiti, regalando loro corpo e volume.

Il prodotto si inserisce nelle pareti attraverso un design non invasivo: un gioco di equilibri tra linearità e fantasia, per un approccio progettuale innovativo e mai scontato.

Minimalist in its style, with a highly performing light output: Minimal is an indirect light wall lamp for indoor spaces made of AirCoral® that plays with architectures, giving them shape and volume.

The product is integrated inside surfaces thanks to a non-invasive design: a game of balance between linearity and creativity, for an innovative and never ordinary project approach.

VERSUS

Emissione luminosa verso il basso o verso il soffitto: Versus è una lampada a parete da interni in AirCoral® versatile, in grado di adattarsi a seconda delle necessità e delle esigenze progettuali. Un prodotto dal design lineare, in cui la geometria è ispirazione e punto di partenza per rendere personale e inconfondibile ogni progetto di luce.

A downwards or upwards light emission: Versus is a versatile indoor wall lamp made of AirCoral® that allows infinite possibilities inside the light engineering project, depending on architectural needs and demands. A product with a linear design, where geometry is inspiration and a starting point to make every lighting project personal and unmistakable.

BAUTA ELLISSE

Perfetta combinazione di geometria e design, Bauta Ellisse è un lampada a parete da interni che si inserisce negli ambienti in modo discreto, integrandosi con il preciso obiettivo di esaltarne le peculiarità. Le curve delicate dell'apparecchio trasmettono eleganza, mentre le caratteristiche dell'AirCoral® — il materiale con cui Bauta Ellisse è realizzato — garantiscono qualità e resistenza: un prodotto versatile, in grado di fare la differenza all'interno degli ambienti in cui viene installato.

Perfectly combining geometry and design, Bauta Ellisse is an indoor wall lamp that discreetly fits inside rooms, integrating with the precise aim to highlight its distinctive features. The delicate curves of this luminaire convey elegance, while the characteristics of AirCoral® — the material Bauta Ellisse is made of — guarantee quality and resistance: a versatile product, able to make the difference inside the environments it is installed in.

ELLISSE BASE

Una lampada a parete da interni in Coral® che fa della semplicità la sua caratteristica principale; Ellisse Base è la soluzione ideale per valorizzare gli ambienti attraverso una luce indiretta e delicata. Una tecnologia unica unita a un design senza tempo, un'estetica elegante e uniforme che si fonde armonicamente con lo spazio in cui il prodotto viene installato.

Simplicity is the main feature of this indoor wall lamp made of Coral®: Ellisse Base is the ideal solution to enhance spaces through an indirect and delicate light. A unique technology together with a timeless design, an elegant and uniform design harmonically combined with the space the product is installed in.

TECHNICAL FEATURES

Code	7442.00
Type	Wall lamp 
Material	00: Coral®
Weight	-
Mounting	Wall mounting
IP rating	IP20
Insulation class	I
Control gear	-
Cut out for plasterboard	-
Lamp type	QT-DE12 
Lamp wattage	1 x 150W max
Luminous efficacy	-
Light distribution	-
Fitting	R7s
Light colour	-
Light hole	-
Voltage connection	220-240V · 50/60Hz
CRI	-
Emergency	-
Energy efficiency class	A

BAUTA SFERA

Bauta Sfera, una lampada a parete da interni, si impone con eleganza nello spazio costruito, una forma da cui si sprigiona una luce delicata. Le curve eleganti di Bauta Sfera si combinano alla qualità e alla resistenza del materiale AirCoral[®], dettando regole precise e soddisfacendo anche le esigenze progettuali minimaliste.

Bauta Sfera, an indoor wall lamp, elegantly imposes itself upon structured spaces, a shape emanating a delicate light. The elegant curves of Bauta Sfera combine with the quality and the resistance of AirCoral[®], satisfying even the most minimalist demands.

SFERA

La forma geometrica per eccellenza dà vita a una lampada a parete da interni a luce indiretta in AirCoral® disponibile in 3 differenti misure. Il design delicato e sempre attuale: Sfera mantiene il giusto equilibrio tra funzione e bellezza delle forme, per un prodotto dalle performance illuminotecniche di qualità.

The geometric shape par excellence gives life to an indoor wall lamp made of AirCoral® available in three different versions. With a delicate and always modern design: Sfera keeps the right balance between functionality and beauty of shapes, for a product with high-quality illuminating engineering performances.

FLAG

Un apparecchio che si staglia sulle pareti, flessibile e sinuoso: Flag è una lampada a parete da interni in AirCoral® predisposta sia per montaggio orizzontale che verticale, consentendo una massima flessibilità di utilizzo. Un prodotto in grado di fondersi con lo spazio circostante, generando una luce delicata e piacevole. Le finiture sono curate nel dettaglio: viti e giunture non sono visibili, per una superficie uniforme e incredibilmente resistente.

A luminaire that stands out on walls, flexible and sinuous: Flag is an indoor wall lamp made of AirCoral® that can be installed horizontally or vertically, allowing the highest flexibility of use. A product able to blend into the surrounding space, generating a delicate and pleasing light. Its finishings are made with attention to the smallest details: screws and joints are not visible, for a uniform and incredibly resistant surface.

FRAME

Una lampada a parete da interni con il corpo in AirCoral® trattabile con svariati tipi di finiture, tra cui "foglia oro". Una collaborazione tra Buzzi & Buzzi e l'Accademia di Brera Milano ha portato alla nascita di 12 "lucidipinte". Luce e arte si incontrano: 12 progetti iconografici interpretati dagli artisti dell'Accademia si fondono con la superficie neutra e la forma pura del Frame e, intimamente, con i suoi valori simbolici e strutturali, dando vita a vere e proprie opere d'arte "illuminate" da collocare all'interno dello spazio abitativo.

An indoor wall lamp with body in AirCoral® treatable with a variety of finishes, including "golden leaf". A collaboration between Buzzi & Buzzi and Milan's Brera Academy led to the creation of 12 "paintedlights". Light and art blend: 12 iconographic projects interpreted by artists of the Academy meet the neutral surface and the pure shape of Frame and, intimately, with its symbolic and structural values, giving life to real "illuminated" artworks to be placed inside the living space.

Example for gold leaf finish; code 2808.14

Dodici "lucidipinte" si installano nel FAHB il nuovo grande albergo dell'Arte Contemporanea a Milano. Di prof. Andrea B. Del Guercio, titolare della Cattedra di Storia dell'Arte Contemporanea, Accademia di Belle Arti di Brera.

Pittura e scultura, nelle varie correnti artistiche caratterizzanti la storia dell'arte, dagli albori alla produzione in serie, sono sempre state in relazione con lo studio degli Interni, producendo un inestimabile patrimonio di opere che si fondono per creare un tutt'uno con lo spazio.

Da questo l'intuizione Buzzi & Buzzi di produrre dodici "lucidipinte", scelte tra oltre quaranta progetti iconografici, interpretate dagli artisti dell'Accademia di Brera, che sono ora esposte nell'Albergo FAHB. L'incipit di tale operazione creativa è la decisione di fondere il carattere espressivo dell'artista con la superficie neutra e la forma pura della linea "FRAME" e, più intimamente, con i suoi valori simbolici e strutturali.

La Luce nell'Arte ha sempre avuto un'importanza fondamentale, dalla ricerca scultorea del "Bello Ideale" Classico, all'idea degli Impressionisti di catturare l'attimo di luce che scorre e sfiora la materia. Nasce l'importanza del rapporto tra luce e materia e nel caso del concorso "Light-Parade" di Buzzi & Buzzi luce-energia che nasce dalla materia.

La luce ha una collocazione interna, creando una comunicazione con le decorazioni della cornice e generando così un'opera d'arte "illuminata" da collocare nello spazio abitativo.

Twelve "painted lights" are being installed at the FAHB, the new grand Hotel for Contemporary Art in Milan.

By Prof. Andrea B. Del Guercio, chairholder of History of Contemporary Art at the Brera Accademy of Fine Arts (Milan).

Painting and sculpture, in the different art trends characterizing art history, from dawn to the series production, have always been in relationship with the study of Indoors, producing an invaluable heritage of works that melt to create an all-in-one with the space.

From this the intuition of Buzzi & Buzzi to produce twelve "painted lights", chosen between more than forty iconographic projects interpreted from the artists of the Brera Accademy, which are now exposed in the FAHB Hotel. The incipit for this creative operation is the decision to merge the expressive character of the artist with the neutral surface and the pure shape of the "FRAME" line, more intimate, with its symbolic and structural values.

In art, Light has always been of fundamental importance, from the sculptural research of the classic "Ideal Beauty" to the idea of the Impressionists to capture the moment of light which flows and skims the materia. The importance of the relationship between light and materia appears and in the case of the "Light-Parade" contest from Buzzi & Buzzi light-energy arises from materia. The light has an internal placing, creating communication with the frame decoration and generating in this way an "illuminated" art work to place in the living space.

PONTE GRANDE

Un ponte al di sotto del quale scorre una luce che supera ogni barriera: Ponte Grande è una lampada a parete da interni dal design ricercato, per un'illuminazione dinamica e coinvolgente. La purezza del bianco e l'effetto setoso dell'AirCoral® caratterizzano un prodotto che si distingue per la sua eleganza, perfetta combinazione di estetica e tecnologia avanzata.

A bridge under which flows a light that goes beyond any barrier: Ponte Grande is an indoor wall lamp with a refined design, for a dynamic and engaging lighting. The purity of white and the silky effect of AirCoral® characterize a product that stands out for its elegance, a perfect combination of aesthetics and advanced technology.

LIGHT BOX

Un box da cui la luce si sprigiona con determinazione, creando effetti luminosi suggestivi: Light Box è un proiettore da interni da parete a luce diretta ed indiretta dotato di gruppo ottico asimmetrico ad alta resa in alluminio 99,85% protetto da un vetro di sicurezza. Il prodotto è dotato di un telaio portacomponenti in acciaio verniciato bianco sul quale sono presenti guide su cui viene posizionato il corpo in AirCoral®.

Light Box è ideale per l'illuminazione di ambienti quali uffici, saloni, banche, chiese e centri commerciali; valorizza gli spazi, accentua i dettagli architettonici e le strutture, per una massima flessibilità di utilizzo.

A box out of which light comes out with determination, creating evocative light effects: Light Box is a wall direct and indirect light projector with a asymmetrical reflector in aluminium 99.85%, high luminance, protected by a diffusing security glass. The product is provided with a stainless steel control gear plate, white painted, on which AirCoral® body is installed by guide rail.

Light Box is ideal to light up offices, halls, banks, churches and shopping centres; it enhances spaces, highlights architectural details and structures, for the highest flexibility of use.

CORNICE

Un sistema modulare a parete da interni in AirCoral® dal nome rappresentativo di una precisa caratteristica: Cornice è caratterizzato da modanature sporgenti, che richiamano gli ordini architettonici classici. Un nome, una forma, una funzione: questo prodotto, realizzato in 2 versioni — modulo singolo chiuso cablato con fluorescenza T8 (luce indiretta) e modulo singolo chiuso vuoto — è un vero e proprio elemento decorativo da inserire in parete, in grado di valorizzare gli ambienti e angolature grazie alla sua semplice presenza. I moduli lineari possono essere tagliati alla lunghezza richiesta e a 45° per ottenere gli angoli interni ed esterni.

A modular wall frame made of AirCoral® with a name that stands for a precise characteristic: Cornice is characterized by protruding moulding, that recall the classic architectural orders. A name, a shape, a function: this product, available in 2 versions — single closed module wired with T8 fluorescence (indirect light) and single closed empty module — is a decorative element stitched on the wall, able to enhance spaces and angles just with its presence. Linear modules can be cut to the desired length and at 45° to get internal and external angles.

PIXEL C

1000 lm A PLAFONE IN 60 mm.

Apparecchio da interni per installazioni a soffitto in laterizio o cartongesso realizzato in AirCoral®, Pixel C si ispira alla famiglia Genius ed è caratterizzato da linee semplici e raffinate si integra perfettamente nelle superfici in cui viene installato. Lo spazio di installazione si riduce e anche il meccanismo si semplifica. La manutenzione della sorgente Led si effettua agevolmente attraverso il foro di emissione luce. Con un diametro di soli Ø 16 mm e un fascio puntuale e scenografico è in grado di creare giochi di luce d'effetto attraverso la sua semplicità tecnica.

1000 lm CEILING MOUNTED IN 60 mm.

Indoor luminaire made in AirCoral® for brick or plasterboard ceilings, Pixel C is inspired by the Genius family and is characterized by simple and refined lines, fits perfectly into the surfaces where it is installed. The installation space is reduced and the mechanism is also simplified. The LED source maintenance is easily carried out through the emission hole. With its only Ø 16 mm diameter and a punctual and scenographic beam, it's capable of creating impactful light effects through its technical simplicity.

SUPERFUTUREDESIGN™

DOT

MINIATURIZZATO, ANTIABBAGLIANTE.

Dot, disponibile a 1, 3 o 5 sorgenti, è una lampada che contiene al suo interno una parabola rivoluzionaria che garantisce un effetto anti abbagliamento e sorgenti LED ad altissima intensità luminosa.

Si tratta di un apparecchio per interni in AirCoral® installabile a soffitto che sfrutta al massimo la ricerca tecnologica per garantire la più completa customizzazione della forma e dell'inclinazione della parabola interna. Sono disponibili diverse lenti che permettono di adattarsi ad ogni tipo di esigenza progettuale.

MINIATURISED, ANTI-GLARE.

Dot, available with 1, 3 or 5 light sources, is a lamp containing an innovative parabola which grants an antireflection effect and LED sources of high illumination intensity. It is an indoor luminaire made of AirCoral® and installable on ceilings which takes maximum advantage from technological research, guaranteeing the most complete customization of the form and inclination of the internal parabola. The product is available with different lens which allow the adaptation to any types of architectonic projects and necessities.

SLICE C

800 lm A PLAFONE,
CON DRIVER INCORPORATO IN SOLI 60 mm.

Slice C è un apparecchio installabile a soffitto che si caratterizza per il design minimale.

Con un corpo a base quadrata di 150 x 150 mm e un'altezza totale di soli 60 mm permette installazioni su qualsiasi tipo di supporto. Realizzato con un corpo in alluminio verniciato bianco e frontalino in AirCoral® mantiene tutte le caratteristiche della sua versione a scomparsa totale. L'ottica LED è in grado di emettere 800 lumen e permette una manutenzione semplificata grazie alla rimozione e sostituzione della parte elettrica dal solo lato frontale, riducendo al minimo interventi post installazione. A differenza della sua versione ad incasso, Slice C permette di installare il driver on board.

800 lm CEILING MOUNTED
WITH INCORPORATED DRIVER IN JUST 60 mm.

Slice C is a ceiling-mounted luminaire with a minimal design. With a square base body measuring 150 x 150 mm and an only 60 mm total height, it can be installed on any type of support. Made with a white painted aluminium body and an AirCoral® front panel, it maintains all the features of its totally disappearing version. The LED optic is able to emit 800 lumens and allows a simplified maintenance thanks to the extraction and replacing of the electrical part from the front side only, reducing the post-installation maintenance to the minimum. Differently from its recessed version, Slice C allows to install the driver on board.

BARD

INCASSO IN BATTUTA
COMPLETAMENTE VERNICIABILE COME IL SOFFITTO.

Bard è un apparecchio da incasso per installazione in battuta su soffitti di cartongesso, è dotato di corpo in Coral® e una meccanica composta da molle che permettono di fissarlo al controsoffitto. Con un corpo esterno a base quadrata di 100 x 100mm e un'anima interna metallica che, effettuando un foro di Ø 85 mm, permette installazioni su qualsiasi tipo di supporto. Bard è un apparecchio da interni dal design minimale e disponibile con diverse sorgenti luminose LED.

RECESSED TILL END POSITION
COMPLETELY PAINTABLE LIKE THE CEILING.

Bard is a recessed luminaire installable on plasterboard ceilings, equipped with a Coral® body and a spring mechanism that allows the product to be fixed to the false ceiling. Square base outer body measuring 100 x 100mm and inner metal core which, installed inside a Ø 85 mm hole, can be installed on any type of support. Bard is an indoor luminaire with a minimal design, available with different LED luminous sources.

TELESCOPIC

Una serie di faretti a incasso da interni per installazione in soffitto di cartongesso. Telescopic si compone di una parte fissa e di una telescopica che consente di alloggiare la lampadina a filo esterno del faretto o all'interno, a seconda dell'effetto che si vuole creare, per soluzioni sempre diverse e particolari.

Telescopic è dotato di una parte in Coral®, disponibile in diverse forme, e di una meccanica cromata dotata di una parte fissa e una mobile che permette l'alloggiamento della lampadina e una facile manutenzione.

A range of recessed indoor downlights installable on plasterboard ceilings. Telescopic is provided with a fixed part and a telescopic one. The latter part allows to place the light bulb both externally, at the level of the spotlight, or internally. This permits to choose among different and always new, peculiar solutions, depending on the desired effect.

Telescopic is equipped with a Coral® part, available in different shapes, and with a chromatic mechanism composed by a fixed part and an adjustable one. The adjustable part allows an easier relocation and maintenance of the luminaire.

ZEN

Zen è una lampada a sospensione da interni in AirCoral® fornita di LED 30W ad altissima efficienza, dalla tecnologia esclusiva e dalle forme particolari, in cui la materia si piega al servizio dell'architettura: dotato di uno schermo in policarbonato satinato in grado di creare una luce soffusa e omogenea. Zen è una linea di luce sottile di soli 26 mm, attraverso cui il prodotto diventa protagonista e impreziosisce gli ambienti. Disponibile con cassetta a soffitto verniciata bianca oppure con incasso a scomparsa totale per alloggiare il driver nel controsoffitto.

Zen is a suspended indoor luminaire made of AirCoral® with high-efficiency 30W LED, with an exclusive technology and a particular shape, where substance bends at the service of architecture: equipped with a satin polycarbonate screen that creates a suffused and consistent light, Zen is fine line light of just 26 mm, through which the product is protagonist, enhancing the rooms. Available with a white-painted ceiling case or with a recessed housing, that allows to place the driver in the false ceiling.

FUNNEL LAMP

Un nome evocativo, che rispecchia alla perfezione il design dell'apparecchio: Funnel è una lampada a sospensione da interni, un imbuto di luce diretta dal design elegante e pulito, perfetto per valorizzare gli ambienti con raffinata semplicità. Le forme semplici e il design contemporaneo sono una caratteristica unica. Realizzato in AirCoral®, personalizzabile con finiture colorate, garantisce una perfetta combinazione di tecnologia e design. Disponibile singola, con incasso a soffitto o con cassetta in acciaio bianca verniciata in soft-touch, oppure con unica cassetta a tre sospensioni; con cavo in silicone trasparente regolabile per una lunghezza max di 2 m.

An evocative name, that perfectly reflects the design of this product: Funnel is an indoor suspended luminaire, a funnel of direct light with an elegant and clean design, perfect to enhance spaces with refined simplicity. The simple and the contemporary design are a unique feature. Made of AirCoral®, customizable with coloured finishings, it guarantees a perfect combination of technology and design. Available in single version with a recessed housing or with a steel, white-painted soft touch case, or even with three suspended lamps installed in a unique steel, white-painted ceiling case; provided with a transparent cable of silicone adjustable to a maximum of 2 m.

Outdoor

Where light and resistance live together

GENIUS IP65

1000 lm IN SOLI 24 mm DI DIAMETRO.
FACILE MANUTENZIONE.

Genius IP65 è un incasso a scomparsa totale da esterni per installazione in soffitto di cartongesso o laterizio. La presenza di una lente protettiva IP65 satinata sulla sorgente luminosa e la sua combinazione con il corpo in Coral WaterOut®, lo rendono un prodotto resistente sia all'acqua che alla polvere. Con la versione per esterni la luce di Genius da oggi non ha più limiti ed è in grado di imporsi, discreto, in tutte le tipologie di ambiente. La parte elettrica è estraibile direttamente dal foro luce con un semplice gesto della mano, grazie alla meccanica push-pull, che facilita l'eventuale estrazione e la sostituzione della sorgente LED in caso di manutenzione.

1000 lm IN A DIAMETER OF JUST 24 mm,
EASY MAINTENANCE.

Genius IP65 is a total recessed outdoor luminaire installable on plasterboard or brick ceilings. The protective IP65 satin lens on the light source, perfectly merges with the Coral WaterOut® body, making the product resistant to both dust and water. With the outdoor version, Genius' light knows no limits and can now discreetly impose itself in any kinds of environments. The electrical part can be extracted directly from the emission hole with a simple hand gesture. This is possible thanks to the push-pull mechanism, which facilitates the eventual extraction and replacing of the LED source in case of maintenance.

GENIUS BASIC IP65

LUCE RETROCESSA,
MINIMO INGOMBRO POSTERIORE.

Questa variante di prodotto aggiunge alle caratteristiche peculiari del Genius Basic il grado di protezione IP65, per applicazioni in spazi esterni e ambienti molto umidi. Genius Basic IP65, apparecchio da incasso a scomparsa totale per outdoor, ha la scocca realizzata in Coral WaterOut®, il brevetto Buzzi & Buzzi che unisce l'impermeabilità alle note caratteristiche del Coral®. Destinato al mercato Contract, Genius Basic IP65 garantisce tutta l'affidabilità tecnica di Buzzi & Buzzi: è in grado di erogare 540 lm dal foro di 20 mm ed è estremamente compatto, con possibilità di installazione in soli 80 mm di intercapedine.

La parte elettrica è direttamente estraibile dal foro luce, grazie a un nuovo sistema che facilita l'estrazione e la sostituzione della sorgente LED, senza la necessità di alcuna botola di ispezione e tantomeno di interventi invasivi in caso di manutenzione.

REAR LIGHT,
MINIMUM REAR DIMENSIONS.

This product version adds to the special characteristics of the Genius Basic IP65 protection level, for very damp indoor and outdoor applications. The body of the Genius Basic IP65, the totally recessed luminaire for outdoor use, is made in Coral WaterOut®, the Buzzi & Buzzi patent which adds being waterproof to the characteristic features of Coral®.

Designed for the Contract market, Genius Basic IP65 guarantees all the technical reliability of Buzzi & Buzzi: it can supply 540 lm from the usual light emission hole of 20 mm (0.79"), is extremely compact and can be installed in a cavity measuring only 80 mm (3.15").

The electrical part can be removed through the light hole, thanks to a mechanism making it easy to pull the LED light source out and replace it, so there is no need for any inspection hatch, nor for invasive maintenance operations.

GENIUS NAKED IP65

UN GENIUS NUDO
ADATTO PER QUALSIASI SUPPORTO E MATERIALE.

Genius Naked IP65 è un apparecchio a scomparsa totale a soffitto, adatto per esterni e ambienti molto umidi, grazie all'alto grado di protezione IP65. Questo prodotto estende il concetto di totale integrazione superficiale, tipico di Buzzi & Buzzi, a qualsiasi materiale e contesto: infatti può essere installato su qualsiasi superficie: legno, cemento, specchio, marmo, moduli industriali con uno spessore da 12 mm a massimo 20 mm.

Unica parte visibile è il foro di soli 20 mm, mentre la parte elettrica è estraibile direttamente dal foro luce, grazie alla meccanica push-pull, che facilita la sostituzione della sorgente LED, senza la necessità di alcuna botola di ispezione e tantomeno di interventi invasivi in caso di manutenzione.

A BARE GENIUS
SUITABLE FOR ANY SUPPORT AND MATERIAL.

Genius Naked IP65 is a totally recessed ceiling-mounted luminaire, suitable for use outdoors and in very damp environments, thanks to its high IP65 protection level.

This product extends the concept of total surface integration, typical of Buzzi & Buzzi, to any material and context: in fact, it can also be installed on wood, cement, mirror, marble and industrial modules with a thickness of from 12 mm (0.47") to a maximum of 20 mm (0.79"). The only visible part is the light emission hole measuring only 20 mm (0.79"), while the electrical part can be removed through the light hole, thanks to a push-pull mechanism making it easy to pull the LED light source out, with no need for any inspection hatch, nor for invasive maintenance operations.

GENIUS BASIC NAKED IP65

IL PIÙ COMPATTO DA INSTALLARE SU QUALSIASI MATERIALE.

La versione da esterni di Genius Basic Naked vive ora in Genius Basic Naked IP65. Questo apparecchio da incasso a scomparsa totale per esterni, è ingegnerizzato per raggiungere un grado di protezione IP65. Essendo una variante della versione Naked, questo prodotto estende il concetto di totale integrazione superficiale a qualsiasi materiale e contesto ed inoltre aggiunge le potenzialità tipiche della linea Basic. Genius Basic Naked IP65 è un prodotto molto compatto, sintesi della ricerca Buzzi & Buzzi in termini di versatilità, efficienza ed affidabilità: flusso luminoso da 540 lm, installabile in soli 80 mm di intercapedine, con protezione IP65. Può essere installato su qualsiasi superficie: legno, cemento, specchio, marmo, moduli industriali con spessore da 12 mm a 30 mm. Tipicamente Genius, unica parte visibile è il foro luce di 20 mm, da cui è estraibile la sorgente LED grazie a un sistema che facilita la sostituzione del corpo illuminante, senza necessità di alcuna botola di ispezione e tantomeno di interventi invasivi in caso di manutenzione.

THE MOST COMPACT TO INSTALL ON ANY MATERIAL.

The outdoors version of Genius Basic Naked is now available in the Basic Naked IP65 model. This totally recessed luminaire for outdoor use has been engineered to achieve an IP65 protection level. Since it is a new version of the Naked model, this product extends the concept of total surface integration to any material and contexts and also achieves the potentials typical of the Basic line.

Genius Basic Naked IP65 is a very compact product, a synthesis of Buzzi & Buzzi research in terms of versatility, efficiency and reliability: a light flow of 540 lm, installable in a cavity of only 80 mm (3.15"), with IP65 protection. It can also be installed on wood, cement, mirror, marble and industrial modules with a thickness of from 12 mm (0.47") to a maximum of 30 mm (1.18"). Typically Genius, the only visible part is the light emission hole measuring 20 mm (0.79"), from which the LED light source can be pulled out thanks to a system which makes it easy to replace the light source, so there is no need for any inspection hatch, nor for invasive maintenance.

IDROUT IP65

INCASSO CON SORGENTE LUMINOSA A VISTA.

Idrout IP65 è un apparecchio da esterni, incasso a scomparsa totale in Coral WaterOut® che, grazie al design lineare, pulito e minimale, sa integrarsi alla perfezione nelle superfici, raggiungendo uno straordinario risultato di scomparsa totale. Idrout IP65 è adatto per l'installazione in ambienti umidi, come bagni o SPA, garantendo l'impermeabilità e una lunga durata nel tempo. Una luce essenziale che dialoga con un prodotto altamente tecnico. La sorgente retrocessa dona una luce precisa e puntuale, senza compromettere funzionalità e design.

RECESSED FITTING WITH EXPOSED LIGHT SOURCE.

Idrout IP65 is a totally disappearing outdoor recessed luminaire made of Coral WaterOut®; thanks to its linear, neat and minimal design, it is able to perfectly integrate inside surfaces, achieving an extraordinary result of total disappearance. Idrout IP65 is ideal to be installed in moist environments, such as bathrooms or SPAs, guaranteeing impermeability and long duration over time. An essential light interacting with a highly technical product. The backward light source emanates a precise and punctual beam which does not compromise functionality and design.

PHANTOM IP44 / IP65

INCASSO WALL WASHER DI PICCOLE DIMENSIONI.

Phantom IP44/IP65 è un apparecchio da esterni, incasso a scomparsa totale per l'installazione a parete e soffitto di cartongesso o laterizio. La soluzione più corretta per introdurre la luce negli ambienti esterni, grazie al materiale in Coral WaterOut®, con l'obiettivo di raccontare scenari sempre diversi. L'illuminazione definisce gli spazi, li determina, li valorizza, stagliandosi, netta, attraverso le superfici.

SMALL WALL WASHER RECESSED FITTING.

Phantom IP44/IP65 is a totally disappearing outdoor recessed luminaire, installable on plasterboard or brick walls and ceilings. It is the best solution to spread light on external environments thanks to the material it is made of, Coral WaterOut®, narrating ever different landscapes. Its lighting defines, determines and enhances spaces, standing out, sharply, through surfaces.

BLADE IP44 / IP65

SISTEMA MODULARE E TAGLIABILE A MISURA.

Blade IP44/IP65 è un sistema modulare a scomparsa totale in Coral WaterOut® per l'installazione a parete e soffitto di cartongesso o laterizio. Una lama di luce che fende il buio, che segna i percorsi, che determina gli spazi esterni. Blade può essere utilizzata a moduli multipli con una o due sorgenti luminose contrapposte che illuminano il corpo interno. Integrato nella parete o nel soffitto, crea scenografie luminose dal fascino unico e suggestivo.

MODULAR SYSTEM WHICH CAN BE CUT TO MEASURE.

Blade IP44/IP65 is a totally disappearing modular system made of Coral WaterOut®, installable on plasterboard or brick walls and ceilings. A blade of light slashing the darkness, highlighting paths, defining outdoor spaces. Blade can be used in multiple modules with one or two counterposed light sources that illuminate its internal body. Integrated inside walls or ceilings, it creates bright settings with a unique and suggestive appeal.

ALADIN IP65

INCASSO A PARETE E SOFFITTO CON VETRO A FILO.

Aladin IP65 è un apparecchio da esterni, incasso a scomparsa totale in Coral WaterOut®, per l'installazione a parete e soffitto di cartongesso o laterizio. Dal design pulito e minimale, si integra alla perfezione nell'ambiente in cui viene installato con l'obiettivo di esaltare le architetture e gli scenari outdoor. Il prodotto scompare, inserendosi nelle superfici, garantendo un'ottima illuminazione degli spazi esterni e delle zone umide, grazie a una luce performante che diventa protagonista dello spazio. Il vetro frontale satinato è fissato con 4 viti in policarbonato dello stesso colore del vetro.

WALL OR CEILING RECESSED FITTING WITH FLUSH GLASS.

Aladin IP65 is a totally disappearing outdoor recessed luminaire made of Coral WaterOut®, installable on plasterboard or brick walls and ceilings. With its neat and minimal design, it perfectly integrates inside the space it is installed in, enhancing architectures and outdoor landscapes. The product disappears, as it is inserted inside surfaces, ensuring a good lighting on external and moist areas, thanks to a performing light that becomes the real protagonist of the space. The front satin glass is fixed with 4 polycarbonate screws of the same colour of the glass.

TECHNICAL FEATURES

Code	1842.CW
Type	Downlight 90° Wall recessed 90° 
Material	CW: Coral WaterOut® waterproof
Weight	1.5 Kg
Mounting	Wall and ceiling recessed
IP rating	IP65
Insulation class	III
Control gear	Constant current electronic driver
Cut out for plasterboard	195 x 185 mm
Lamp type	LED 500 mA 
Lamp wattage	1 x 9W
Luminous efficacy	1125 lm - 3000K
Light distribution	Wide beam 40°
Fitting	-
Light colour	White 3000K White 2700K 4000K (on request)
Light hole	100 x 100 mm
Voltage connection	220-240V · 50/60Hz
CRI	>90
Emergency	-
Energy efficiency class	A++
Note	Glass diffuser with 4 polycarbonate screws of the same colour of the glass. On request available dimmable PUSH or DALI.

PASSÉ IP65

SCOMPARSA TOTALE PER L'ESTERNO,
INERTE ALLA SALINITÀ.

Passé IP65 è un apparecchio da esterni, incasso a scomparsa totale per l'installazione a parete e soffitto di cartongesso o laterizio che, grazie alla sua luce, indica precisi percorsi luminosi: il flusso luminoso corre sulle pareti, crea una guida discreta dal design minimale, lo spazio si piega ai desideri della creatività, dando vita a soluzioni uniche e ricche di fascino. Grazie alla durezza tipica del DurCoral®, Passé IP65 è il prodotto ideale per l'installazione in ambienti in cui è necessaria una particolare resistenza agli agenti esterni.

*TOTAL RECESSED FITTING FOR OUTDOORS,
SALT-PROOF.*

Passé IP65 is a totally disappearing outdoor recessed luminaire, installable on plasterboard or brick walls and ceilings; thanks to its light, it shows precise light paths: its luminous beam flows on the walls, creating a discreet guide with a minimal design, spaces are shaped by desires of creativity, giving life to unique and fascinating solutions. Thanks to the characteristic toughness of DurCoral®, Passé IP65 is the ideal product to install in environments where a particular resistance to external agents is required.

NUSS IP65

TECNOCEMENTO DURCORAL® INERTE AL CLORO.

Nuss IP65 è un apparecchio per esterni a parete in DurCoral® dal design pulito e lineare. Nuss IP65 è resistente a qualsiasi condizione atmosferica, crea un rapporto dialettico con gli spazi arricchendoli semplicemente con la sua presenza discreta ma decisa: può infatti integrarsi o diventare protagonista a seconda delle esigenze. Un apparecchio a biemissione in cui tecnologia e design minimale si fondono in un prodotto dalle performance illuminotecniche uniche, in grado di fondersi perfettamente negli ambienti in cui viene installato, trasformando la luce in protagonista assoluta. Nuss IP65 ha un'anima interna in alluminio pressofuso, un diffusore in vetro satinato, oltre a guarnizioni in silicone e viti interne in acciaio inox che lo rendono ideale per ambienti esterni.

DURCORAL® TECHNO-CEMENT, CHLORINE-PROOF.

Nuss IP65 is a wall lighting device for outdoor use made of DurCoral® with a clean and linear design. Nuss IP65 is resistant to any atmospheric conditions, and creates a dialectic relationship with spaces, enhancing them with its discreet yet precise presence. In fact, it is able to integrate in or to become a protagonist, depending on the various needs. A bi-emission luminaire in which technology and minimal design merge in a product with unique illumination-engineering performances, it perfectly mingles with the environments it is installed in, transforming light into an absolute protagonist. Nuss IP65 has an internal soul of die-cast aluminium, a satin-glass diffuser, silicone gaskets and internal inox-steel screws which make it the ideal product for outdoor environments.

THE NUDE

TECNOCEMENTO TRASPARENTE.

The nude coniuga La forza e la resistenza del cemento e la trasparenza del vetro temprato. Il risultato è un bollard con luce a 360°, che nasconde nella purezza delle sue forme un prodotto adatto ad installazioni anche tra le più gravose grazie alla sua elevatissima resistenza meccanica, all'abrasione, alla resistenza ai raggi UV, al cloro e al sale. The Nude è costruito con un innovativo cemento trasparente, materiale brevettato ed esclusivo, frutto del reparto di Ricerca e Sviluppo di Italcementi; già utilizzato con successo presso Padiglione Italia Expo di Shanghai.

TRANSPARENT TECHNO-CEMENT.

The Nude combines the strength and resistance of concrete and the transparency of tempered glass. The result is a bollard with 360° light emission, which pure shapes hide a product suitable for even the most onerous installations thanks to its high mechanical, abrasion, UV rays, chlorine and salt resistance. The Nude is built with an innovative transparent cement, exclusive patented material, the result of the Research & Design department of Italcementi, already successfully used at the Italian Expo Pavilion of Shanghai.

UNDERLINE

PIASTRELLA LUMINOSA IN TECNOCEMENTO DURCORAL®.

Alto indice di protezione da agenti esterni per Underline, apparecchio da terra calpestabile, ideale per installazioni all'aperto, grazie al grado di protezione IP68.

Una luce integrata nella pavimentazione, dal design geometrico realizzata in DurCoral®, l'innovativo brevetto Buzzi & Buzzi che ha resistenza meccanica superiore al calcestruzzo ed è quindi in grado di integrarsi con qualsiasi pavimentazione. Con 5.5W di potenza LED, questo apparecchio non solo è un ottimo segnapasso, ma permette anche di valorizzare gli spazi outdoor.

LUMINOUS TILE IN DURCORAL® TECHNO-CEMENT.

High protection index from external agents for Underline, the ground walkable luminaire, ideal for outdoor installations, thanks to its IP68 level of protection.

A light built into the paving, with a geometrical design made in DurCoral®, the innovative Buzzi & Buzzi patent with a mechanical strength higher than concrete and can therefore be built into any type of paving. With a LED power of 5.5W, this luminaire is not only an excellent footpath light, but can be also used to enhance outdoor areas.

UNDERScore

TECNOCEMENTO INTERRABILE.

Underscore è una perfetta unione di concetti e forme. Apparecchio per esterni in DurCoral® con grado di protezione IP68, capace di garantire una perfetta resistenza meccanica in caso di umidità e usura da agenti esterni.

Una linea di luce, un fascio che definisce i percorsi in maniera variabile in base alla tipologia di installazione; il prodotto, infatti, può avere un'altezza di 200 mm se tenuto a superficie, ma che offre la possibilità di essere modificata fino ad uno sviluppo verticale fuori terra di 80 mm, nel caso in cui l'apparecchio fosse interrato.

TECHNO-CEMENT WHICH CAN BE BURIED IN THE GROUND.

Underscore is the perfect combination of concepts and shapes. This outdoor device made of DurCoral®, with IP68 protection scale, provides impeccable mechanical resistance to humidity and external agents.

A boundary of light, a beam that marks paths in many different ways, depending on the type of installation; in fact, the product can be 200 mm (7.87") high when placed on the surface, but it can also be vertically extended by 80 mm (3.15"), when the device is underground.

VALO IP65

TECNOCEMENTO: RESISTENZA E LUMINOSITÀ AI MASSIMI LIVELLI.

Ingegneria, innovazione e tecnica si sposano per dare vita a Valo IP65, una lampada da terra per esterni e interni in DurCoral® che, grazie alle sue caratteristiche estetiche e tecniche e al suo design accattivante e innovativo, si integra in modo discreto nello spazio in cui viene installata. Attraverso la luce, che enfatizza i dettagli, Valo IP65 regala nuova vita agli ambienti, illuminando arredi e architetture, valorizzando terrazzi, vialetti di ingresso e giardini, con un preciso obiettivo: creare scenografie luminose dallo stile e dal design inconfondibile.

TECHNO-CEMENT: RESISTANCE AND LUMINOSITY AT MAXIMUM LEVELS.

Engineering, innovation and technique get together to give life to Valo IP65, a floor lighting device for indoor and outdoor use made of DurCoral®. Thanks to its aesthetic and technical features and its charming and innovative design, it integrates itself in a discreet way in the space where it is installed. Through light, Valo IP65 enhances details, giving new life to spaces, highlighting furnitures and architectures, valorizing terraces, walkways and gardens, with the precise aim: to create light settings of unique style and design.

THE BOLLARD

BOLLARD IN TECNOCEMENTO CON ALTEZZA PERSONALIZZABILE.

The Bollard è un apparecchio da terra nero opaco, minimale e compatto. Grazie al corpo in DurCoral® di colore grigio e alla resistenza della struttura, The Bollard è ideale per gli ambienti esterni. L'altezza del palo è totalmente customizzabile, mentre il corpo è decorabile con qualsiasi tipo di pittura, in modo da potersi integrare in qualsiasi ambientazione ed è perfetto per definire percorsi tramite la luce in spazi esterni. Una lampada che crea scenografie precise e suggestive, mai invadenti.

BOLLARD IN TECHNO-CEMENT WITH CUSTOMISABLE HEIGHT.

The Bollard is an opaque-black floor lamp with a compact and minimal design. Thanks to its grey DurCoral® body and to its structure resistance, The Bollard is suitable for outdoor environments. The pole height is totally customizable, while the body can be decorated with any types of paintings in order to merge with all kinds of environments. The perfect product for tracing paths through light in outdoor spaces, a never intrusive lamp which creates precise and suggestive luminescent settings.

TECHNICAL FEATURES

Code	1731.DC
Type	Ground lamp 
Material	DC: DurCoral® and steel
Weight	6 Kg
Mounting	Ground lamp
IP rating	IP65
Insulation class	III
Control gear	Constant current electronic driver
Cut out for plasterboard	-
Lamp type	LED IP65 500 mA 
Lamp wattage	1 x 5W
Luminous efficacy	117 lm/W - 3000K
Light distribution	Wide beam 70°
Fitting	-
Light colour	White 3000K White 2700K 4000K (on request)
Light hole	Ø 50 mm
Voltage connection	220-240V - 50/60Hz
CRI	80 90 (on request)
Emergency	-
Energy efficiency class	A++
Note	Su richiesta si realizzano misure palo "A" da 400 a 1200 mm

MOND IP65

CORPO IN DURCORAL® MOLTO PIÙ FORTE
DEL CEMENTO ARMATO.

Mond IP65 è un apparecchio per esterni da terra caratterizzato da linee uniche e accattivanti: un incontro perfetto tra tecnica e design in grado di regalare un'atmosfera dal fascino discreto ed elegante agli ambienti. Un impatto visivo dal design inconfondibile per un'illuminazione performante diffusa a 180°, attraverso un vetro satinato di spessore 12 mm, che grazie anche al materiale DurCoral® con cui è realizzato, si inserisce perfettamente negli ambienti esterni.

*STRUCTURE IN DURCORAL MUCH STRONGER
THAN REINFORCED CONCRETE.*

Mond IP65 is a floor lighting device for outdoor use, characterized by unique and captivating lines: a perfect combination of technique and design, Mond IP65 is able to give an atmosphere of discreet and elegant appeal to the environment. A visual impact with a unique design for a performing 180° diffused lighting through 12mm-thick satin glass. The product perfectly integrates itself with the outdoor spaces thanks to DurCoral® material.

TECHNICAL FEATURES

Code	1728.DC
Type	Ground lamp

MARKUS

CE V E

SYSTEM MODULARE PER CREARE CANALI DI LUCE

Markus è un sistema modulare da parete in PVC colorato e componibile. Ideale per corridoi in ACQUAFIX per l'installazione in parete a soffitto di cartongesso o metallo che si compone nello spazio dando vita a un sistema di luce continua, un modo luminoso che dà carattere agli spazi. Il modo di integrarlo in un muro è invisibile e armonico.

MODULAR SYSTEM TO CREATE CHANNELS OF LIGHT

Markus is a wall-depending continuous modular indoor system made of ACQUAFIX modules on plasterboard or metal walls and ceiling. The unique look in the space giving life to a continuous chain of light, a light mood that gives character to all spaces, creating unique where light takes the mark.

In its way, space becomes matter & is moulded by the mark of the designer. Light becomes a channel of pure emotion.

Mounting instruction for concrete/brick housing

CASSAFORMA PER CALCESTRUZZO/LATERIZIO
CONCRETE/BRICK HOUSING

1
Rimuovere il blocco per il passaggio del corrugato.
Remove the block for the passage of the corrugates tube.

2
Allargare verso l'esterno le quattro zanche laterali.
Open out the four side anchors.

3
Murare la cassa fino a filo bordo "A" che rappresenta il livello finale dell'incasso Buzzi & Buzzi una volta installato.
Install the case in the wall up to the edge "A" that is the final level of the product once installed.

4
Quando la cassaforma è murata, rimuovere i bordi laterali.
When the cases is installed, remove the side edges.

5
Regolare le viti per mettere in bolla l'incasso Buzzi & Buzzi.
Adjust the screws to level the product.

6
Inserire il corpo del prodotto.
Insert the body of the product inside the metal box.

7
Bloccare il prodotto con le flange piegandole sulla staffa microforata.
Lock the product with the flanges bending them on the bracket.

8
Procedere con la rasatura/finitura.
Proceed with the finish.

Mounting instruction for plasterboard

1
Forare il cartongesso.
Cut the plasterboard surface.

2
Inserire l'incasso in AirCoral®.
Insert the AirCoral® body.

3
Posizionare l'incasso in AirCoral®
in appoggio sul cartongesso.
*Place the AirCoral® body onto
the plasterboard surface.*

4
Fissare il prodotto con viti autofilettanti in
corrispondenza delle alette microforate.
*Fix the product with self-tapping screws right
at the level of the micro-perforated wings.*

5
Stuccare e rasare il prodotto
Plaster and putty the product.

6
Collegare la parte elettrica
Connect the electrical part.

7
Inserire la parte elettrica.
Insert the electrical part.

8
Posizionare il vetro.
Place the glass.

General information

Le apparecchiature illustrate in questo catalogo, sono state progettate e costruite in conformità alle vigenti normative nazionali ed internazionali. Tutti gli apparecchi sono realizzati in conformità alle Direttive comunitarie EEC 73/23 LVD – EEC 89/336 EMC – EEC 93/68 CE Mark e muniti di marcatura **CE**.

*The luminaires described in this catalogue have been designed and built in compliance with the applicable local and international regulations. All the luminaires have been built in conformity with the EEC 73/23 LVD – EEC 89/336 EMC – EEC 93/68 CE Mark European directives and provided with **CE** Mark.*

		_7	Stagno alla sommersione <i>Sealed against immersion</i>
		_8	Stagno alla sommersione <i>Sealed against immersion</i>

CLASSE DI ISOLAMENTO INSULATION CLASS

	Classe 0 Class 0	Apparecchio dotato di solo isolamento funzionale. Protezione: data dall'ambiente. <i>Luminaire with functional insulation only. Protection: given by the environment.</i>
	Classe 1 Class 1	Apparecchio dotato di isolamento di base. Protezione: collegamento delle parti metalliche accessibili alla terra di protezione. <i>Luminaire with basic insulation. Protection: connection of the accessible metal parts to the earthing protection.</i>
	Classe 2 Class 2	Apparecchio dotato di doppio isolamento. Protezione: mediante isolamento supplementare. <i>Luminaire with double insulation. Protection: through additional insulation.</i>
	Classe 3 Class 3	Apparecchio idoneo per alimentazione a bassissima tensione di sicurezza. Protezione: intrinsecamente sicuro. Le parti che portano corrente possono essere accessibili. <i>Luminaire suitable for supply at safety extra low voltage. Protection: intrinsically safe. The live parts can be accessed.</i>

CLASSIFICAZIONE SECONDO IL MATERIALE DELLA SUPERFICIE DI INSTALLAZIONE RATING ACCORDING TO THE MOUNTING SURFACE MATERIAL.

	Apparecchio predisposto per il montaggio diretto su superfici infiammabili. <i>Luminaire designed for direct mounting on inflammable surfaces.</i>
	Apparecchio idoneo ad essere installato su superfici normalmente infiammabili rispettando la distanza indicata tra prodotto e pareti. <i>Luminaire designed for installation on normally inflammable surfaces provided that the distance indicated between product and walls is respected.</i>
	Apparecchio idoneo per montaggio solo su superfici non infiammabili. <i>Luminaire designed for mounting only on non-inflammable surfaces.</i>

TCNA
TCNA

TCNA, Tile Council of North America, è l'ente Americano che certifica l'AirCoral® come materiale:
ANTIBATTERICO capace di eliminare i batteri dalle superfici;
ANTINQUINANTE capace di ridurre gli elementi inquinanti presenti nell'aria;
FOTOCATALITICO capace di ridurre gli elementi dannosi.

*TCNA, Tile Council of North America, is the American body that has certified the AirCoral® material as:
ANTIBACTERIAL able to eliminate bacteria on its surfaces
ANTI-POLLUTING able to reduce polluting elements in the air
PHOTOCATALYTIC able to reduce harmful elements.*

REACH - sicurezza chimica
REACH - chemical safety

Regolamentazione e certificazione (direttiva Parlamento Europeo) per la produzione di sostanze chimiche, con lo scopo di proteggere l'uomo e l'ambiente da sostanze tossiche.
Il prodotto AirCoral® è privo di sostanze tossiche, non contiene elementi dannosi per la salute dell'uomo o inquinanti secondo l'elenco registrato dall'Agenzia Europea delle sostanze chimiche (ECHA).

*Regulation and certification (European Parliament directive) for the production of chemical substances, in order to protect people and environment against toxic substances.
The AirCoral® product is devoid of toxic substances, it does not contain noxious elements for the human health or polluting elements according to the registered list of the European Agency for chemical substances (ECHA).*

MADE IN ITALY
Iscrizione Buzzi IT
MADE IN ITALY IT
Registration Buzzi

Istituto per la tutela dei produttori italiani. Certifica che la collezione Buzzi & Buzzi è interamente prodotta in Italia, non importata ed utilizza la migliore componentistica elettronica europea. Una garanzia per la lotta alla contraffazione del made in Italy, troppo spesso solo dichiarato senza essere ufficialmente certificato, e per un'assoluta tutela dei consumatori finali. Grazie al certificato "Made in Italy Certificate", si fa netta la distinzione tra la produzione 100% made in Italy e quella semplicemente dichiarata ma di dubbia provenienza.

Institute for the tutelage of the italian manufacturers. It certifies that the Buzzi & Buzzi collection is entirely produced in Italy, not imported and it is using the best european electronic components. A guarantee for the fight against fakes of the made in Italy, too often only declared without being officially certified, and for the absolute tutelage of the final consumers. Thanks to the "Made in Italy Certificate", you can distinguish clearly between the 100% made in Italy production and the one simply declared but with doubtful origin.

Certificazione Europea
European Certification

Conformità Européenne. La Società Buzzi & Buzzi è certificata da Ente Terzo notificato per la sicurezza dei propri prodotti che garantisce la conformità alle più restrittive norme tecniche vigenti.

European Conformity. The company Buzzi & Buzzi is certified by a notified Third Board for the security of the own products, guaranteeing the conformity to the most restrictive technical regulations in force.

Certificazione Gost - R
Certification Gost - R

Certificazione della qualità del prodotto e conformità alle normative ed esigenze della federazione russa.

Product quality certification in conformity to the regulations and requirements of the Russian Federation.

Certificazione LEED
LEED Certification

La certificazione LEED, Leadership in Energy and Environmental Design, è lo standard riconosciuto per misurare l'impatto ambientale e la sostenibilità degli edifici. Ottenere la certificazione LEED è il miglior modo per dimostrare che un edificio, in ogni sua parte, è veramente "green".

LEED (Leadership in Energy and Environmental Design) certification is the recognised standard for measuring the environmental impact and sustainability of buildings. LEED certification is the best proof that a building is well and truly "green".

Certificazione UL
UL Certification

UL, Underwriters Laboratories, è il laboratorio di prova maggiormente riconosciuto per l'omologazione degli apparecchi commercializzati in America.

La collezione Buzzi & Buzzi è in fase di certificazione; contattare l'azienda per ulteriori informazioni.

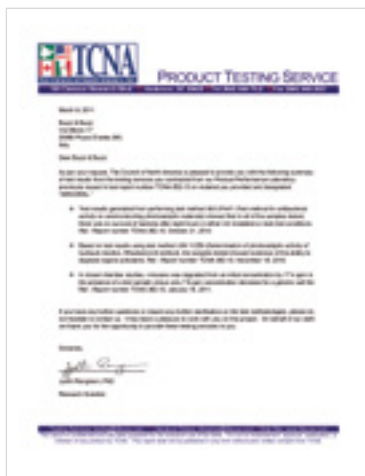

UL, Underwriters Laboratories, is the best recognised test lab for the certification of devices traded in America. Buzzi & Buzzi's collection is currently in the process of being certified. Please contact the company for further information.

Certificazione ETL
ETL Certification

ETL, Electrical Testing Laboratories, è una certificazione di sicurezza. Indica che il prodotto è stato testato per poter essere venduto e distribuito nel territorio nordamericano. La collezione Buzzi & Buzzi è certificata; si prega di contattare per ulteriori aggiornamenti.

ETL, Electrical Testing Laboratories, is a quality certification. It guarantees that the product was tested before being sold and delivered within the North American boundaries. The collection of Buzzi & Buzzi is certified; for further updates, please contact us.

Ogni prodotto in AirCoral® viene corredato del certificato "PRODUCT TESTING SERVICE" fornito dal Tile Council of North America.
Ogni prodotto in AirCoral® è identificato da apposita marchiatura con targa in alluminio.

Every product made with AirCoral® is accompanied by a "PRODUCT TESTING SERVICE" certificate provided by the Tile Council of North America. Every product made with AirCoral® is identified by a marking with a special aluminum plate.

Testato per impermeabilità con pressione a (200 +/- 50) kPa pari a 2 atm per (72 +/- 2) h, secondo la normativa (UNI EN 12390-8:2009).
Tested by: Istituto Giordano

Tested for water resistance under pressure conditions of (200 +/- 50) kPa equal to 2 atm per (72 +/- 2) h, according to the (UNI EN 12390-8:2009) regulation.
