designed for happiness

Faro Barcelona exists to contribute to the wellbeing and happiness of people through design and the relationship we establish with the objects that surround us in our daily lives. We believe in honest and accessible design. Design for everyone.

Nuestra razón de ser es contribuir al bienestar y la felicidad de las personas a través del diseño y la relación que establecemos con los objetos que nos acompañan en nuestro día a día. Creemos en el diseño honesto, cercano y accesible. Diseño para todos.

People Personas

The value of a great team
The value of a great team At Faro Barcelona, sustainability starts from the inside, taking care of the well-being and personal growth of our team.

Equality and diversity
At Faro Barcelona all people are great and equal, whatever their gender, age, religion or sexual orientation. Women, as well as men, play an important role: 76% of our team and 49% of our leaders are women.

Community support
For over a decade, we have been collaborating in social projects of foundations such as Caritas or Royal Mc Donalds, providing our help to ensure a better quality of life for the people helped by these organisations. Since 2008, we have had our own social project with Hook; for every light sold, we feed a child in Africa. We have managed to help 471 children.

Supporting new talent
We collaborate with universities and design schools to help new talents emerge into their professional development. Projects such as Reborn, a second life for waste (La Llotja), Design Make It with 3D printing (CIM UPC), are some of the collaborations we have carried out.

Social innovation
We take part in disruptive social innovation research and develop products and services that solve social problems such as the ageing of the population. We have a positive impact on people's quality of life, contributing to their well-being and comfort through quality, accessible and sustainable lighting and design.

El valor de un gran equipo humano
En Faro Barcelona la sostenibilidad empieza en el interior, cuidando el bienestar y crecimiento personal de nuestro equipo.

Igualdad y diversidad
En Faro Barcelona todas las personas son grandes e iguales, sean del género, edad, religión u orientación sexual que sean. La mujer, igual que el hombre, desempeña un papel importante: el 76% de nuestro equipo y el 49% de nuestros líderes son mujeres.

Apoyo a la comunidad
Llevamos más de una década colaborando en proyectos sociales de fundaciones como Cáritas o Royal Mc Donalds aportando nuestra ayuda para garantizar una mejor calidad de vida de las personas que ayudan estas organizaciones. Desde 2008, tenemos nuestro propio proyecto social con Hook, por cada luminaria vendida alimentamos a un niño en África. Hemos logrado ayudar a 471 niños.

Apoyo a los nuevos talentos
Colaboramos con universidades y centros de diseño para ayudar a los nuevos talentos en su desarrollo profesional. Proyectos como Reborn, una segunda vida para los desechos (La Llotja), Diseño Make It con impresión 3D (CIM UPC), son algunas de las colaboraciones que hemos realizado.

Innovación social
Participamos en investigaciones de innovación social disruptiva y desarrollamos productos y servicios que resuelven problemáticas sociales como el envejecimiento de la población. Impactamos positivamente en la calidad de vida de las personas, contribuyendo a su bienestar y confort a través de la iluminación y el diseño de calidad, accesible y sostenible.

light the world

Our purpose is to contribute to the wellbeing of people and our environment. Our sustainability journey focuses on two main objectives: reducing our negative impact on the planet and maximising our positive social impact.

Nuestro propósito es contribuir al bienestar de las personas y de nuestro entorno. Nuestro camino hacia la sostenibilidad se centra en dos grandes objetivos: reducir nuestro impacto negativo en el planeta y maximizar nuestro impacto social positivo.

Sustainable packaging

At Faro Barcelona, we have a sustainable packaging decalogue. Our packaging is made of recycled cardboard boxes printed in one ink and without staples to ease the disassembly and the right recycling. We have eliminated single-use plastics and replaced them with recyclable paper bags and we use recycled cardboard shavings to protect the product during transport in 60% of our shipments. All our packaging meets Drop Test ISTA-2C quality standards to ensure products arrive in perfect condition.

More sustainable logistics and transport

We have optimised the packaging size of each product to reduce the amount of packaging material and the carbon footprint of transport. FMCG products are transported in stacks, which means a greatly reduced carbon footprint. We have opened a new logistics centre in China to supply our Asia-Oceania market in a more sustainable way and reduce carbon emissions from transport.

Sustainable workspaces

We use green electricity in our offices. We produce 70% of the energy we consume with our own photovoltaic installation, ensuring that the energy is from renewable sources. In addition, our headquarters are designed to maximise the use of solar energy and natural light.

Supporting new talent Team committed to sustainability

At Faro Barcelona we have an internal sustainability committee that promotes different sustainability actions and monitors them.

Embalaje sostenible

En Faro Barcelona disponemos del decálogo de embalaje sostenible. Nuestros embalajes son cajas de cartón reciclado impresas a una sola tinta y sin grapas para facilitar así el desmontaje y su correcto reciclaje. Hemos eliminado los plásticos de un solo uso y sustituido por bolsas de papel reciclable y utilizamos virutas de cartón reciclado para la protección del producto durante el transporte en el 60% de nuestros envíos. Todos nuestros embalajes cumplen los estándares de calidad de Drop Test ISTA-2C para asegurar que los productos lleguen en perfecto estado.

Logística y transporte más sostenible

Hemos optimizado el tamaño del embalaje de cada producto para reducir la cantidad de material de embalaje y la emisión de carbono derivado del transporte.

Los productos de gran consumo se transportan apilados, lo que implica una gran reducción de huella de carbono.

Hemos abierto un nuevo centro logístico en China para abastecer a nuestro mercado Asia-Oceania de una forma más sostenible y reduciendo las emisiones de carbono derivadas del transporte.

Espacios de trabajo sostenibles

En nuestras oficinas utilizamos energía eléctrica verde. Producimos un 70% de la energía que consumimos con nuestra propia instalación fotovoltaica, asegurando que la energía es de fuente renovable. Además, nuestra sede cuenta con un diseño pensado para el máximo aprovechamiento de la energía solar y la luz natural.

Equipo comprometido con la sostenibilidad

En Faro Barcelona contamos con un comité de sostenibilidad interno que promueve diferentes acciones de sostenibilidad y realiza su seguimiento.

Product Producto

Sustainability from conceptualisation

In our eco-design decalogue we set out the main guidelines we follow to make our designs more sustainable. We work with external consultants to reduce the environmental impact of our production processes, guaranteeing the quality and safety of our products. We are training our design team in circular design techniques for the more sustainable development of all our products.

Sostenibilidad desde la conceptualización

En nuestro decálogo de eco-diseño recogemos las principales directrices que seguimos para que nuestros diseños sean más sostenibles. Trabajamos con asesorías externas para reducir el impacto ambiental de nuestros procesos productivos, garantizando la calidad y seguridad de nuestros productos. Estamos formando a nuestro equipo de diseño en técnicas de diseño circular para el desarrollo más sostenible de todos nuestros productos.

A longer useful life

We work to design timeless, repairable and long-lasting products in order to reduce their environmental impact. We research new methods to ensure that our designs last longer, are easier to repair and recycle.

Una mayor vida útil

Trabajamos en el diseño de productos atemporales, reparables y duraderos con el fin de reducir su impacto medioambiental. Investigamos nuevos métodos para garantizar que nuestros diseños sean más duraderos, fáciles de reparar y de reciclar.

Standardisation and modularity

We work on the standardisation of components for a more efficient use of resources and more sustainable production. We develop modular collections that allow us greater versatility and more efficient logistics and transport.

Estandarización y modularidad

Trabajamos en la estandarización de componentes para un uso más eficiente de los recursos y una producción más sostenible. Desarrollamos colecciones modulares que nos permiten mayor versatilidad y una logística y transporte más eficientes.

More sustainable processes and materials

One of the major challenges towards a more sustainable production is the choice of materials as it represents more than 70% of the product's carbon footprint. The use of recycled materials or materials with a lower environmental impact, the implementation of new techniques and the reduction of the number of materials used, help us to achieve more sustainable manufacturing.

Procesos y materiales más sostenibles

Uno de los grandes retos hacia una producción más sostenible es la elección de los materiales ya que representa más del 70% de la huella de carbono del producto. El uso de materiales reciclados o con menor impacto ambiental, la implementación de nuevas técnicas y la reducción del número de materiales usados, nos ayuda a conseguir una fabricación más sostenible.

Control of the supply chain

We share our sustainability vision and commitments with all our suppliers. We, therefore have a supplier code of conduct to ensure a more sustainable supply chain.

Control de la cadena de suministro

Compartimos nuestra visión y compromisos de sostenibilidad con todos nuestros proveedores. Por ello, disponemos del código de conducta de proveedores para garantizar una cadena de suministro más sostenible.

In-house Lab

At our own laboratory, all the products are subject to strict tests:

IP, electrical shock, impact shocks (IK), incandescent wire, thermal and mechanical resistance, consume and power factors.

Laboratorio in-house

En nuestro laboratorio, todos los productos se someten a estrictas pruebas:

IP, choque eléctrico, choque de impacto (IK), hilo incandescente, resistencia térmica y mecánica, factores de consumo y potencia.

3D printing

Pioneers in the application of 3D printing to improve design processes.

quality

At Faro Barcelona, we control the quality of our products and services at all stages: from conception and design to functionality and reliability tests, as well as the selection of suppliers and the inspections carried out at all stages of the production process. To guarantee compliance, at Faro Barcelona, we have implemented a quality management system based on ISO90001. Legislative compliance with quality regulations under EN60598 and ERP energy efficiency regulations.

La calidad forma parte de nuestro ADN.

En Faro Barcelona controlamos la calidad de nuestros productos y servicios en todas las fases: desde la concepción y el diseño hasta los ensayos de funcionalidad y fiabilidad, así como la selección de proveedores y las inspecciones realizadas en todas las etapas del proceso productivo.

Para garantizar su cumplimiento, en Faro Barcelona tenemos implantado un sistema de gestión de calidad basado en la ISO9001.

Cumplimiento legislativo de las normativas de seguridad bajo la EN60598 y la normativa de eficiencia energética ERP.
