# LUNA

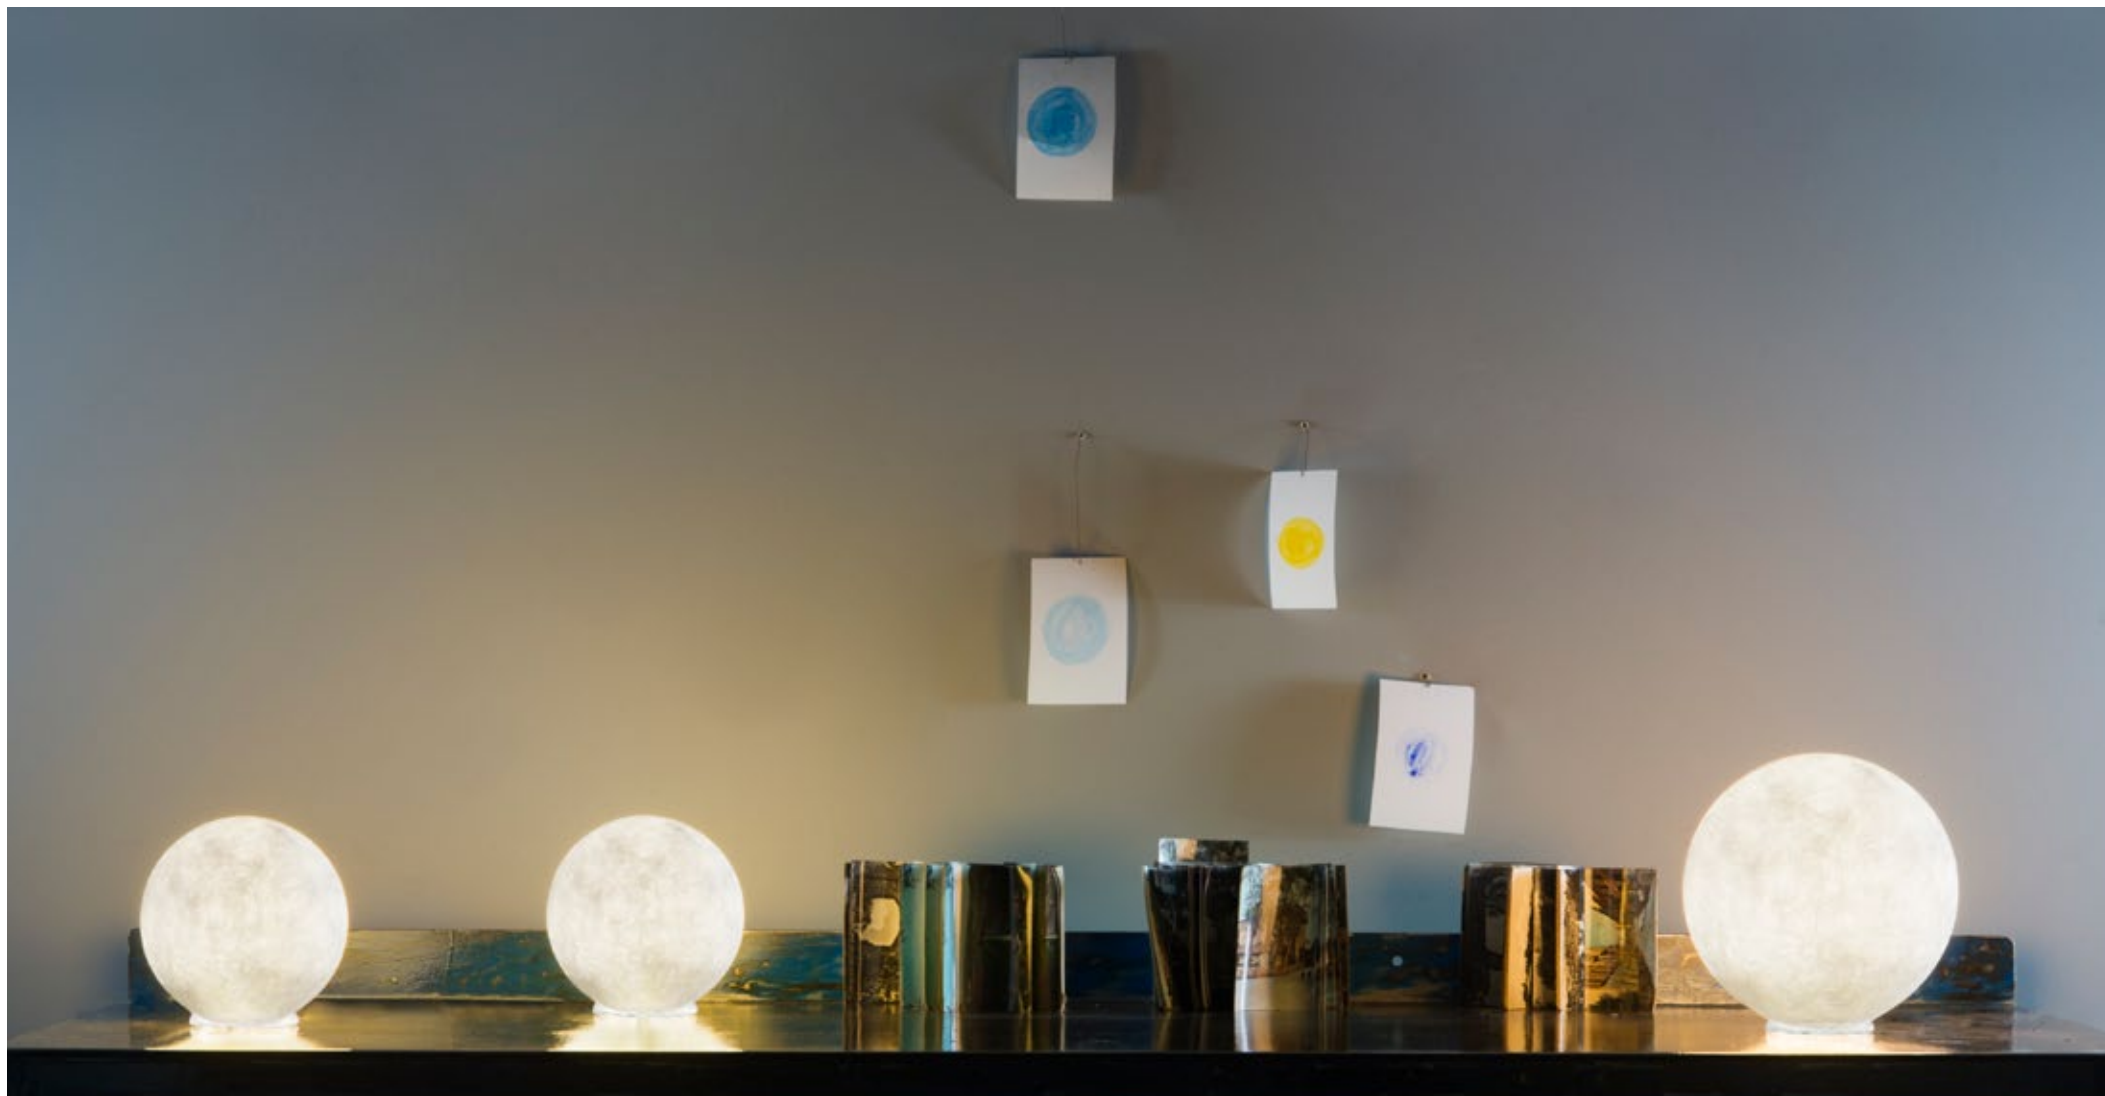

A MIX OF ART AND DESIGN, TO ILLUMINATE EVEN THE DARKEST NIGHT.

MADE IN ITALY SINCE 2003.

---

The moon's mysteries are the inspiration for the Luna collection, made of nebulite a blend of resin and fiber that mimics the uneven softly luminescent qualities of the moon's surface.

# MATT

BRIGHT RAYS AND CONTRASTS OF MATTER, A LIGHTING COLLECTION

MADE FOR PEOPLE THAT STILL MARVEL AT THE WORLD.

---

The collection of lamps includes three lines: Lavagna (blackboard), Cemento (concrete) and Nebula, made with profoundly diverse materials, yet similar in the material look and in the capacity of creating a unique atmosphere.

## LAVAGNA

Write, draw, erase. And start over.

## CEMENTO

Contrast of matter. Internal vs external.

## NEBULA

Smooth, shiny and transparent. A marble-like look.

Mixing art and design is an art in and of itself—and one that is difficult to pull off. Italian artist and designer Luciano Maria Mazzilli in art Oğilunam founded In-es.artdesign in 2003 to make it happen.

His lighting collections radiate pure creativity with an irresistible allure, balancing an interplay of light and shadow with immaculate colour and material contrast. Having studied esthetics, design and painting in several European cities, the artist-designer has received international recognition, both as an artist and as a lighting designer. He has participated in both individual and collective exhibitions, and has won prizes for his designs such as the Interior Design Award, the German Design Award, the Iconic Award and the Design Plus award from Light+Building.

A distinctive trait of the firm is the careful attention to details, and to the selection of materials. Each product goes through a strict quality control to guarantee its excellence.
