COOPER – 507360142

excl. 1x E27 · max. 40W

- **IP44**
- **Lamp(s) not included**

Whether on long summer evenings or in the dark season, the modern outdoor lamp COOPER is, thanks to the special pattern in the shade, both on and off a decorative eye-catcher. When switched on, the luminaire creates effective light accents that provide a special and above all cosy ambience. The IP44 protection rating makes this luminaire the ideal choice for outdoor use, as it is protected against splashing water. The timeless, yet modern colour scheme in anthracite makes it easy to combine into your outdoor space. For energy-saving lighting, it is recommended to use an LED illuminant. These are an optimal alternative to conventional halogen lamps and stand for a high quality of light and energy savings of up to 80%. In addition, LED lamps help you benefit from a long service life, low heat generation and at the same time protect the environment. ☒ ☒
