In summer, the LIMEIRA wall luminaire creates more atmosphere in the dark evening hours and in winter it provides safety and orientation around the house or garden shed. The wall luminaire creates optimal lighting conditions in your outdoor area and lets your house facade shine in a special charm thanks to the up and down lighting. Thanks to the IP44 protection class, it is also protected against splashing water and thus particularly suitable for outdoor use. The black matt plastic is designed with transparent as well as white shades, which makes the luminaire easy to integrate into your outdoor area and ensures maximum light intensity. In addition, the luminaire features modern LED technology, which is characterised by high light quality and energy efficiency. Compared to conventional halogen lamps, up to 80% of energy costs can be saved. In addition, LED lamps help you benefit from a long service life, low heat generation and at the same time protect the environment.
