

Pole

POSADAS – R42251142

incl. 1x SMD LED, 4,5W · 1x 290lm, 3000K

- **Motion sensor**
- **Rechargeable battery operated**
- **IP44**
- **Solar**

Solar lights - a convenient alternative to a fixed power connection and ideal light for the home and garden. Thanks to the solar panel on the POSADAS outdoor light, the light from the sun can be captured and converted into electricity. This saves energy and allows you to place the outdoor lighting where light is needed without the need for a power connection. Ensure sufficient safety along paths or the driveway to the house in the dark. For optimum lighting, the modern LED outdoor light is equipped with a motion sensor that has a detection angle of 90 degrees and a range of 6-8 metres. The light duration of the sensor is around 40 seconds. Thanks to its IP44 protection rating, the 60 cm high path light is protected against splashing water and is therefore suitable for outdoor use. The solar light has a light duration of 1 hour with a charging time of approx. 8 hours. The anthracite-coloured design can be combined in a variety of ways and ensures a modern appearance.

Material construction

Stainless steel · Anthracite

Product dimensions

Width: 15cm
Height: 60cm
Depth: 19cm
Weight: 1,3kg

Technical data

Light source: SMD – LED (integrated)
Watt: 4,5W
Lumen: 1x 290lm
Kelvin: 3000K
Color rendering (CRI): > 80 CRI
Lifetime: 30000H
Switching cycles: 15000x ON/OFF
