

Table lamp

ELLIOT – R52306132

incl. 1x SMD, 2W · 1x 180lm, 3000K

- **4 level Touch function**
- **Rechargeable battery operated**
- **IP44**
- **Recharging USB-C connection**

The puristically designed ELLIOT table lamp can do both - indoors and outdoors. Whether on the balcony, the terrace or in your indoor rooms, the luminaire can be placed in a position of your choice without any cables thanks to the battery operation. The mobile light can be charged via a USB-C connection and also has a 4-fold touch, which can be used to individually determine the light intensity and thus the mood of the ambience. The IP44 classification protects the luminaire from splashing water. Through the simple and reduced design in mushroom shape, the table lamp in black matt becomes a simple decorative element, which is particularly adaptable. In addition, the luminaire features modern LED technology, which is characterised by high light quality and energy efficiency. Compared to conventional halogen lamps, up to 80% of energy costs can be saved. In addition, LED light sources have a long service life, produce less heat and protect the environment.☒

Material construction

Plastic · Black mat

Product dimensions

Height: 30cm
Diameter: 13cm
Weight: 0,4kg

Technical data

Light source: SMD – LED (integrated)
Watt: 2W
Lumen: 1x 180lm
Kelvin: 3000K
Color rendering (CRI): > 80 CRI
Lifetime: 25000H
Switching cycles: 15000x ON/OFF
