The practical FERNANDEZ set of 6 is perfect for the catering trade. Placed on the table, the lights provide cosy light and create a pleasant atmosphere without a socket or annoying cable. The set includes 6 individual lights and a compact charging station that allows all 6 lights to be charged at the same time. Thanks to the IP54 protection rating (splash-proof), the lights are equally suitable for indoor and outdoor use and can even withstand light showers with flying colours. The minimalist design in a classic shape turns the table lamps in matt black into a customisable decorative element. The luminaire also features modern LED technology, which is characterised by high light quality and energy efficiency. Compared to conventional halogen light sources, up to 80% of energy costs can be saved. With LED light sources, you also benefit from a long service life and low heat generation while protecting the environment.
