MINEROS – R55256911

incl. 1x SMD LED, ,2W · 1x 12lm,

- **Switch**
- **Dusk sensor**
- **Rechargeable battery operated**
- **IP44**
- **Solar**
- **Flame effect**

Solar lights – an energy-saving and flexible alternative for atmospheric lighting. Thanks to the solar panel, the light from the sun can be captured and converted into electricity. This gives you the opportunity to place decorative outdoor lighting wherever light is needed, without any need for electricity. The MINEROS solar light has a flame effect and, when charged, provides cosiness and an atmospheric ambience indoors or outdoors. In addition, the light has a twilight sensor so that the light switches on automatically when it gets dark and switches off again when it gets bright. Due to its IP44 protection class, the table light is protected against splashing water and therefore suitable for outdoor use. The lighting time of the table light is 5 hours and the charging time is about 8 hours. The modern basket design in grey gives your outdoor area a feel-good atmosphere and incorporates decorative accents.

Material construction

Plastic · Grey

Product dimensions

Height: 51cm
Diameter: 37cm
Weight: 0,8kg

Technical data

Light source: SMD – LED
Watt: ,2W
Lumen: 1x 12lm
