Charge during the day and enjoy the ideal light in the evening – the TORREZ rechargeable luminaire makes it possible! The futuristic design of the luminaire uses modern technology to make it a must-have for the home or outdoor area. The practical touch sensor on the head makes it easy to adjust the brightness and light colour. After a charging time of around 3 hours, it provides light for up to 4 hours – depending on the setting mode. Thanks to its modern design in matt black, the light is timeless and finds its place in many furnishing styles. The luminaire also features modern LED technology, which is characterised by high light quality and energy efficiency. Compared to conventional halogen light sources, up to 80% of energy costs can be saved. With LED light sources, you also benefit from a long service life and low heat generation while protecting the environment.
