The EDGE is characterized by functionality and elegance. The extraordinary luminaire creates a decorative light atmosphere. The minimalist design is also complemented by practical functions. The luminaire can be set to three light colours (warm, neutral and daylight white) on the canopy via DIP switch. In addition, the brightness can be regulated in three stages via the conventional light switch. In matt black/ matt brass, the luminaire sets elegant and harmonious accents that visually enhance the living space. In addition, the luminaire features modern LED technology, which is characterised by high light quality and energy efficiency. Compared to conventional halogen lamps, up to 80% of energy costs can be saved. In addition, LED light sources have a long service life, produce less heat and protect the environment.
