

DESIGN - Anna Siedlecka & Radek Achramowicz

DESCRIPTION – Indoor / outdoor lamp with big flexible, air-filled shade in white thermo-plastic polyurethane (TPU). The air is the main material, which the lamp is built of. That's why despite its size the lamp is very lightweight. Imperceptible air is the most ecological and innocent material you can imagine, but it has immense strength. United with energy-efficient light sources makes significant alternative to conventional materials and technologies in lighting. Black electrical cable. Self-supporting construction. Delivered deflated.

Body TPU warm white Construction PMMA Light source compact fluorescent 230 110 Input voltage ٧ ٧ 3,5 7.7 Net weight KG lb 4.0 8.8 **Gross weight** KG lb 45 x 45 x 35 cm Package - lamp deflated 1'5" x 1'5" x 1'2"

* Standard cable length (other on request)
