DESIGN - Anna Siedlecka & Radek Achramowicz

DESCRIPTION - The unusual lamp, giving the impression of glowing jellyfish floating in the dark. Made of clear hard plastic (acrylic) and stainless steel with delicate silver wires visible inside. Steel diffusers have LED diodes inside, are flexible and heaving with air movement or touch. The lamp throws moving light-spots on the surfaces around.

Light source: 120 white LED light-points. Low-voltage transformer. Glossy finishing. Upper cover in chromed and polished steel. Fitted with stainless steel suspension cord and transparent electrical cable. Transformer's cover in brushed stainless steel and acrylic. Carefully hand-crafted.
